Coeo

Training Course - Introduction to Power BI

Learn from Coeo's experienced team how to create and deploy data transformation and visualisation solutions using Microsoft Power BI

The Course

Coeo's Introduction to Power BI is a two-day classroom training course that will teach attendees how to load, transform and visualise data using Microsoft's Power BI platform. This course will give newcomers to Power BI an intermediate knowledge of the tool and how to set it up within their business.

This course is delivered by Coeo's experienced business intelligence consultants in person, using a combination of hands-on labs and presentation material.

Who is the course for?

This course is designed for:

- Non-technical and technical data analysts

- Power users of Excel or data analytics tools

- Those needing to find new data insights or modernise ageing reporting platforms

Content Overview

On day one, attendees will learn about the Power BI family of services and how to load, transform and model data through four specialist modules:

- An introduction to Power BI

- Connecting to traditional and modern data sources

- Transforming data

- An introduction to data modelling

Day two's modules focus on advanced data modelling and creating and deploying data dashboards:

- Creating measures and calculations with DAX

- Choosing and deploying data visualisations

- Publishing dashboards to PowerBI. com and mobile devices

- Configuring reports for collaboration

Key Benefits

Coeo's Introduction to Power BI enables data-centric business and technical professionals to confidently use Power BI's desktop, web and mobile services to create modern analytics dashboards using modelled and transformed data.

Course location

We regularly hold courses at select locations around the country - please visit www.coeo.com/events for scheduled sessions.

About Power BI

Power BI is Microsoft's suite of business analytics tools that deliver insights throughout your organisation. Connect to hundreds of data sources, simplify data preparation and drive ad hoc analysis before producing and publishing beautiful reports that can be viewed on the web and across mobile devices.

Why train with Coeo?

Coeo are a Microsoft Gold Partner for analytics, cloud and data management, giving businesses the insights, solutions and support they need to thrive in a data critical world.

We work to stay ahead of technology developments and can help you do this, too, providing training on SQL Server, Power BI and the Azure Data Platform. We offer a range of courses throughout the year – for further information please visit https://www.coeo.com/events/ or contact us at info@coeo.com to discuss your specific requirements.
