Who we are

Rhino Interiors Group is a highly innovative commercial interiors organisation with a passion to help businesses, just like ours, to improve their office surroundings and productivity levels in the workplace.

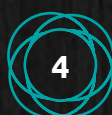

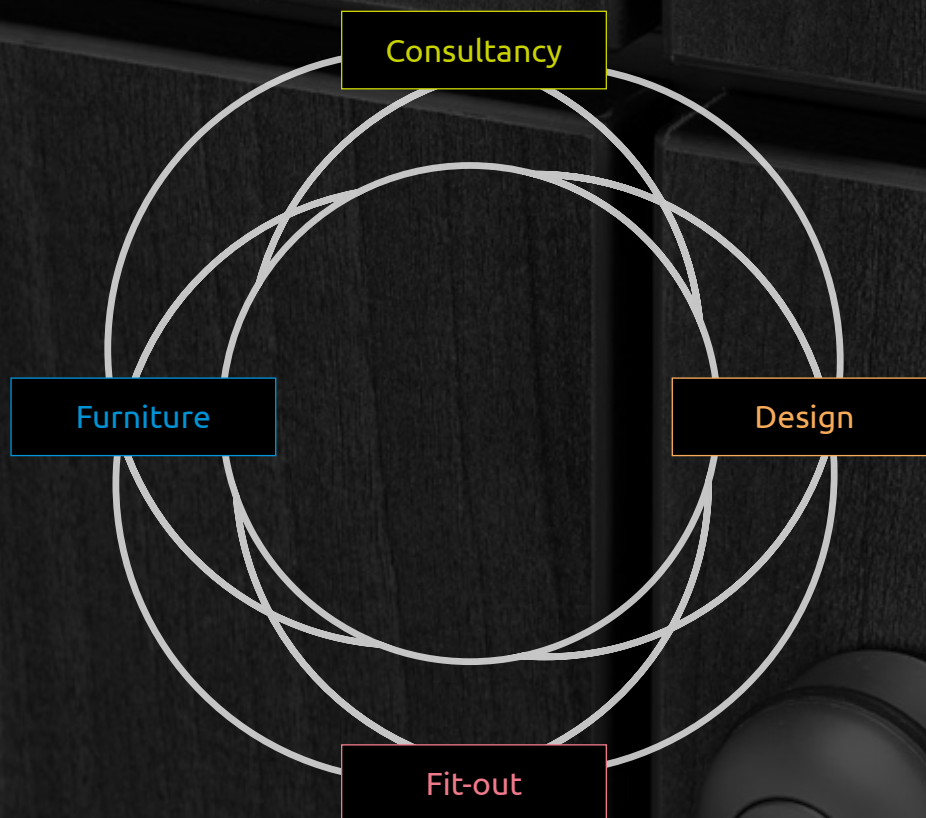

We pride ourselves on engaging with our clients in order to fulfil their vision of creating a workspace that is not only functional but inspiring. The only true way to achieve this is to act like the 'eyes and ears' of our clients and by embedding ourselves in the culture, because no two workplaces are the same.

Our aim is to help businesses reach their full potential by maximising on what is most important to you, your people.

Our organisation

Rhino Interiors Group is a privately-owned business based in the Midlands. We have designed and built Commercial & Industrial workspaces for clients throughout the UK for over 40 years.

 - Glazing
- Doors & Ironmongery
- Landscaping

Working with us

When it comes to building a workspace, there is no one size fits all; every project is different. At Rhino Interiors Group we are able to offer all of our clients an initial free consultation to understand what you are looking to achieve with a project.

During this time, we will assess the workspace, your budget, your business objectives, your timeframe and your ideas and come up with a solution.

Some of our clients don't ever get as far as deciding what it is they actually want to see and so our job is also about advising on the latest workplace design trends and inspirations, but most importantly, which to consider and which you can do without. Whether it be staff engagement quick wins, sick day reduction, or even the latest in ergonomic furniture and designs, we are here to help.

Deciding what's best for you can be a bit of a minefield, but rest assured with our knowledge and years of experience, you won't be disappointed.

We also frequently work with architects, main contractors, specifiers, surveyors and such-like through the tendering process, where they have already decided on the specification and design for projects.

We also assist our clients with access to finance and leasing their projects as opposed to spending your capital.

Case Study

Simply Business

Industry sector
Commercial insurance

Time taken
10 months

Size
22,000 Sq ft

The challenge

As one of the UK's biggest commercial insurance brokers with a bold online presence, Simply Business requested a complete interiors re-fit and refurbishment of their impressively-scaled yet uninspiring building in Northampton. They desired a vibrant and dynamic transformation to correlate with their branding and website.

With an enviable reputation as a great company to work for, they wanted to develop an energetic culture to reflect this, fully focused on their employees, giving them engaging and eye-catching spaces to work within.

Our solution

A thorough consultation period resulted in an interior solution like no other – it allowed Rhino to fully understand how our client was willing to push the boundaries to gain a unique, leading-edge environment. This multi-phase project included a bespoke, fully flexible auditorium with interactive screen and café zone utilising a striking steampunk theme.

The lively palette fully reflects our clients multi-coloured branding, whilst an eclectic and unexpected selection of furniture and fittings all add to the dramatic, futuristic surroundings. There is also a games zone where hardworking staff can take time out.

We provided

- Steampunk café
- Auditorium
- Furniture
- Flooring
- Lighting
- Bespoke joinery
- Power and data installation
- Kitchenette
- Partitions
- Bespoke ceiling

Case Study

Marel

Industry sector

Machinery manufacture for the food industry

Time taken

7 weeks

Size

7,800 Sq ft

The challenge

Internationally recognised brand Marel, machinery manufacturers to the fish meat and poultry industries, relocated their UK sales and customer supports teams to the easily accessible Birmingham Business Park. As well as ensuring a client-centric experience, their brand new premises needed a complete re-fit that improved employee morale and productivity levels as well as supporting continued business growth.

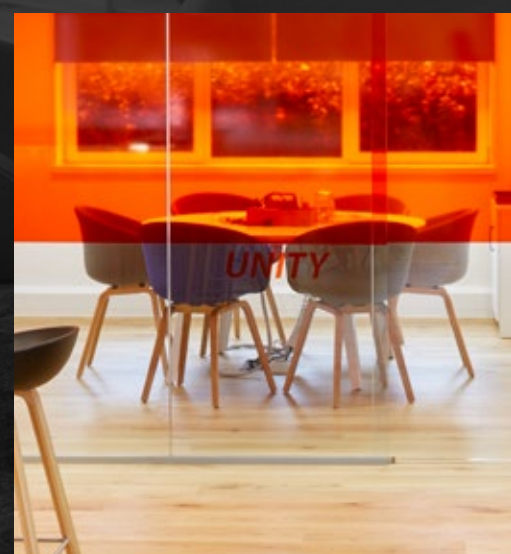

Our solution

Rhino created an environment that included furniture in numerous shapes, sizes and colours, combining it with dynamic flooring and décor designs to produce a unique and modern interior.

As experts in the field of corporate branding assimilation, Rhino ensured the design truly reflected our client's manufacturing and delivery expertise by selecting finishes that were imported from around the world befitting of Marel's global identity and Icelandic heritage.

We provided

- Kitchen servery with installation
- Ceramic flooring
- Furniture design
- Decoration
- Suspended ceiling
- Bespoke joinery
- CAT 7 network installation
- Shower rooms
- Washrooms
- Audio visual
- Storage walls

Case Study

Balfour Beatty

Industry sector
Utility solutions

Time taken
6 weeks

Size
20,000 Sq ft

The challenge

As their business needs grew, infrastructure group Balfour Beatty desired a work environment that would give them enough space to maximise return on investment, heighten operational efficiency and better organise supply storage. They also had a relocation programme to consider, transferring existing construction plant stores from an old asbestos building to a new temporary, on-site premises.

Our solution

This proved to be a diverse, multi-layered operation. Rhino's 40 years of experience in the storage and distribution industry was a huge advantage for a project of this scale.

We utilised our expertise in this field to develop a complete turn-key solution for Balfour Beatty, ensuring a smooth transition of the plant in and out of the new premises with minimal handling and lifting risk to employees.

We provided

- Project management
- A mezzanine floor
- Warehouse offices
- Power and data installation
- Lighting
- Warehouse storage
- Barrier systems
- Cranes

Case Study

Aston Martin

Industry sector
Automotive

Time taken
16 weeks

Size
125,000 Sq ft

The challenge

Aston Martin, one of the world's most prestigious car manufacturers, required construction work and fit-out in their new testing facility. The clean and crisp interior provided by Rhino had to match the client's exacting requirements for quality and precision.

Our solution

The design created by Rhino had to reflect Aston Martin's desire to protect their valuable intellectual property, so security was given paramount importance. As such, careful consideration of sight lines and placement of partitioning was included in the scheme to prevent potential observation of the working areas from the exterior of the building.

The client required the exclusion of pillars from their office spaces which led to Rhino providing innovative cable routing solutions.

We provided

- Project management
- Roller shutter doors
- Aircon installation
- Electrical installation
- Furniture
- Lighting installation
- Metal partitioning – double skinned
- Flooring
- Glass partitioning
- Kitchenettes

Our 16 week build from an empty shell has allowed Aston Martin to keep their plans for testing new car models on track.

Accreditations

We are proud to have the following accreditations to demonstrate our commitment to best practice, ensuring that our working environments are best-in-class.

What is ISO 14001?

ISO 14001 specifies requirements for an environmental management system to enable an organization to develop and implement a policy and objectives which take into account legal requirements and other requirements to which the organization subscribes, along with information about significant environmental aspects.

It applies to those environmental aspects that the organization identifies as those which it can control and those which it can influence. It does not itself state specific environmental performance criteria.

Rhino Interiors Group have been ISO 14001 accredited since April 2010.

What is ISO 9001?

This standard is based on a number of quality management principles including a strong customer focus, the motivation and implication of top management, the process approach and continual improvement. These principles are explained in more detail in the pdf Quality Management Principles.

Using ISO 9001:2015 helps ensure that customers get consistent, good quality products and services, which in turn brings many business benefits.

Rhino Interiors Group have been ISO 9001 accredited since April 2010.

SafeContractor Approved

As the leading health and safety assessment scheme in the UK, SafeContractor is a sign that a business have taken the necessary steps to reduce risk and to maintain their existing contractor and service provider base, whilst also providing a selection of new, pre-approved contractors.
