

BECOME A CLASS[®] OBSERVER

Reliably measure educator-child interactions with an immersive training where you will:

- + Learn about the CLASS tool and the ways it measures effective educator-child interactions
- + Prepare to take the CLASS[®] Observer Certification
- + Practice observing interactions and coding classrooms using the CLASS tool

The Observation Training includes:

- + CLASS Manual, Practice Score Sheets, and other training materials
- + Test prep resources and professional support
- + Access to the Observer Reliability Certification Test

The Pathway to Becoming and Remaining Reliable:

Stay Involved in Three Ways:

- + Join our Observer Directory and increase the value of your CLASS certification
- + Engage with others in our CLASS Learning Community to discuss tips and challenges you may be facing
- + Sharpen your observation skills by reviewing our catalog of [resources](#)
