Milltronics USA Showcases New Products

(Subhead)

Open House in Waconia, Minnesota July 28, 2017

(Body copy)

Waconia, MN, July 1, 2017 – Milltronics USA, Inc. is holding an Open House at its Waconia, Minnesota facility on July 28, 2017 to showcase new products. Over the past two years, Milltronics has introduced five new Series of machines, including the VM Series of cost-effective vertical machining centers, the VM-IL Series of inline performance verticals, the VR/VM-XP Series of #50 taper heavy-duty verticals and the latest, the new VK Series of CNC knee mills and the new SL Series of slant bed CNC lathes. Additionally, during that same period the company also introduced a new control, called the 9000 Series which is touch screen and Windows® - based. “We’ll be showing our two newest products for the first time,” said Louie Pavlakos, Milltronics general manager. “The VK4-II is a new CNC knee mill with the unique MillSlide™ Z-axis and the SL-8-II is the first model in our new Series of CNC slant bed lathes with the 9000 Series control.”

New Series machines on display with live demos will include:

- VK4-II CNC knee mill with unique MillSlide™ Z-Axis
- VM2515 compact footprint, cost-effective vertical machining center
- VM4020 popular size, high-value vertical with 4th axis rotary table
- VM3018IL bigger, heavier, stronger inline performance vertical
- VM6030XP #50 taper heavy-duty vertical machining center
- SL8-II CNC slant-bed turning center

Other live demos will include:

- RH20 rigid-head open bed mill
- ML26 CNC combo lathe
- BR8100IL high-speed bridge mill

Milltronics USA designs and builds machine tools, software and controls. The team in Waconia handles machine design, mechanical and software engineering as well as assembly, finance, sales, service, training and applications engineering. Milltronics is part of the Hurco Companies Inc. family of machine tool companies. “As part of a larger company, the team here has been able to leverage many of its parent’s resources and partnerships,” said Pavlakos. “This has allowed us to bring more value and resources to our customers with new and better products faster than ever before.”

Milltronics has been in Minnesota for more than 40 years, originally founded in 1973 in Richfield, Minnesota. The company has been at its present Waconia, Minnesota location since 1996. “We have a lot of employees who’ve been with the company for 20 or 30 years,” said Pavlakos. “That’s key to our future and our ability to service and take care of the customer. We’re happy to call the Twin Cities home. Please come see us at our Open House.”

The Company says food and drink will be served and all are welcome. To those planning on attending, registration is at www.milltronics.com or 888-999-1440.

Milltronics USA, Inc. is based in Waconia, Minn., and is a leading supplier of easy-to-use and cost-effective machine tools serving job shops, tool rooms, tool & die and other metalcutting customers worldwide. With more than 12,000 machines installed, the company was founded in 1973 and has built its reputation on intuitive controls and well-built machines backed by superior service and support.
