The Industry's Most **COMPREHENSIVE** Industrial Graphics Programs

For 100+ years, Supply Technologies has continued with one defining goal: to enable our customers' manufacturing facilities to build their products better, smarter and faster than ever before.

For over a decade, our Industrial Graphics Division has seamlessly supplied millions of labels, decals and nameplates to the world's leading manufacturers, while establishing global benchmarks that define superior performance, quality and cost efficient procurement processes.

Through focused attention to our customers' diverse and growing needs, we have revolutionized the way companies plan, source, transport, distribute and manage their industrial graphics inventory.

Supply Technologies Industrial Graphics Division is your expert partner in these key areas:

- Lowering total costs through reduction in resource requirements
- Consolidating multiple supply bases
- Establishing cost competitiveness in all markets
- Sourcing from proven worldwide label supplier groups
- Positioned to service any account globally
- Providing proven value engineered services
- Customized VMI programs specific to facility and need

For all of your Industrial Graphics needs, Supply Technologies is your comprehensive solution.

Planning, Design and Technical Services

Supply Technologies recognizes that the initial phases of every Industrial Graphics program are absolutely critical to resource management and end-product success.

Our global team of industry experts and strategic suppliers work closely with you to:

- Specify materials and adhesive systems for your label application
- Design artwork and blueprints
- Provide prototype samples
- Define quality procedures for consistent color matching
- Conduct educational and engineering seminars

Performance Testing and Compliance

Technical perfection is a hallmark of Supply Technologies. All products, regardless of origin, are meticulously inspected and tested against rigorous criteria, including:

- Abrasion Resistance
- Chemical Resistance
- Color Matching
- Heat Aging
- Heat/Cold Resistance
- Ink Adhesion
- Peel Adhesion
- Tensile Strength
- Weathering and Xenon Exposure

Our commitment to quality is embodied by our being third-party registered to the following standards: ISO 9001, ISO 14001, ISO 17025 (A2LA), AS9120A. Additionally, Supply Technologies can provide products that are compliant but not limited to the following Standards or Directives: UL, cUL, CSA, ANSI, AGA, CAG, RoHS, WEEE and REACH.

Sourcing

When it comes to driving down costs without sacrificing quality, sourcing is critical to the bottom line. Supply Technologies' vast global resources and experience gives us unrivaled buying power and access to the finest materials from the lowest cost quality providers.

Collectively, our Industrial Graphics Division:

- Has established international sourcing specialists to continually enhance our global supply chain
- Has established international sourcing groups
- Handles multiple volume ranges
- Manages all commercial relationships
- Initiates vendor consolidation programs

ENSURING

Precision Inventory Management

Precision Inventory Management

Supply Technologies' Industrial Graphics Division will seamlessly outfit you with a precision inventory management program. We customize your program to exact distribution and floor specifications, and combine cross-industry best practices with the principals and techniques of Kanban, JIT, JIT II®, VMI, materials management, Lean Manufacturing, Six Sigma and supply chain management. This ensures that we meet every need and requirement you have to improve your production processes.

With more than 1,000 employees located in over 75 global locations, we are strategically positioned to support your Industrial Graphics needs around the globe.

The Benchmark In Performance and Reliability

Supply Technologies' Industrial Graphics Division helps customers increase their competitive advantage by replacing costly, resource-intensive procedures with proven efficient Total Supply Management™ programs. Only Supply Technologies has the intellectual and technological infrastructure to give you a program of process, resource and production efficiencies that improve your competitive position in the marketplace.

By leveraging all of our worldwide capabilities from point to point, everything we do is strategically engineered to enhance your daily productivity and improve efficiencies within your process.

When it comes to label procurement, Supply Technologies has the expertise for an optimal Industrial Graphics program.

Tactical Process Analysis Team

The objective of our Tactical Process Analysis Team is to identify potential areas of improvement to a customer's ROI and operational efficiencies through a comprehensive material-flow analysis. Targeted areas include transactional, administrative and inventory reductions, along with a space-optimization assessment.

Information we obtain from key plant personnel enables Supply Technologies to quantify and analyze the total cost of ownership for your Industrial Graphics requirements.

Supply Technologies focuses on providing savings in the following areas:

- Accounts Payable
- IT System Infrastructure
- Logistics
- Manufacturing Space
- Material Handling
- Purchasing
- Quality Assurance
- Working Capital

Diversified Industrial Graphics Industry Experience

- Aerospace
- Automotive
- Consumer Electronics
- Electronic Controls
- Heavy Duty Trucks
- HVAC
- Industrial Equipment
- Lawn and Garden
- Outdoor Power Sports
- Semi-Conductor

Industrial Graphics PRODUCTS

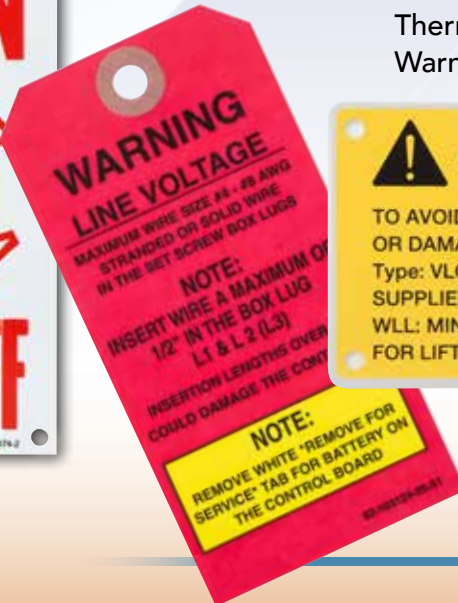

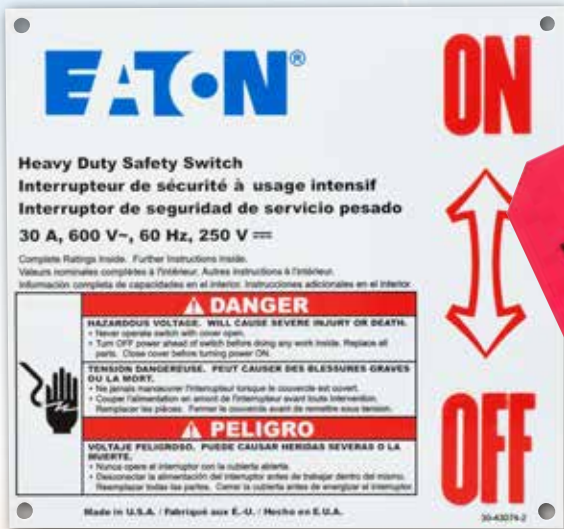

Complete Industrial Graphics Capabilities

The Supply Technologies Industrial Graphics Division provides a complete portfolio for all of your labeling requirements. Our focus is on achieving the right balance between meeting your exact specifications and delivering your final product at the lowest cost.

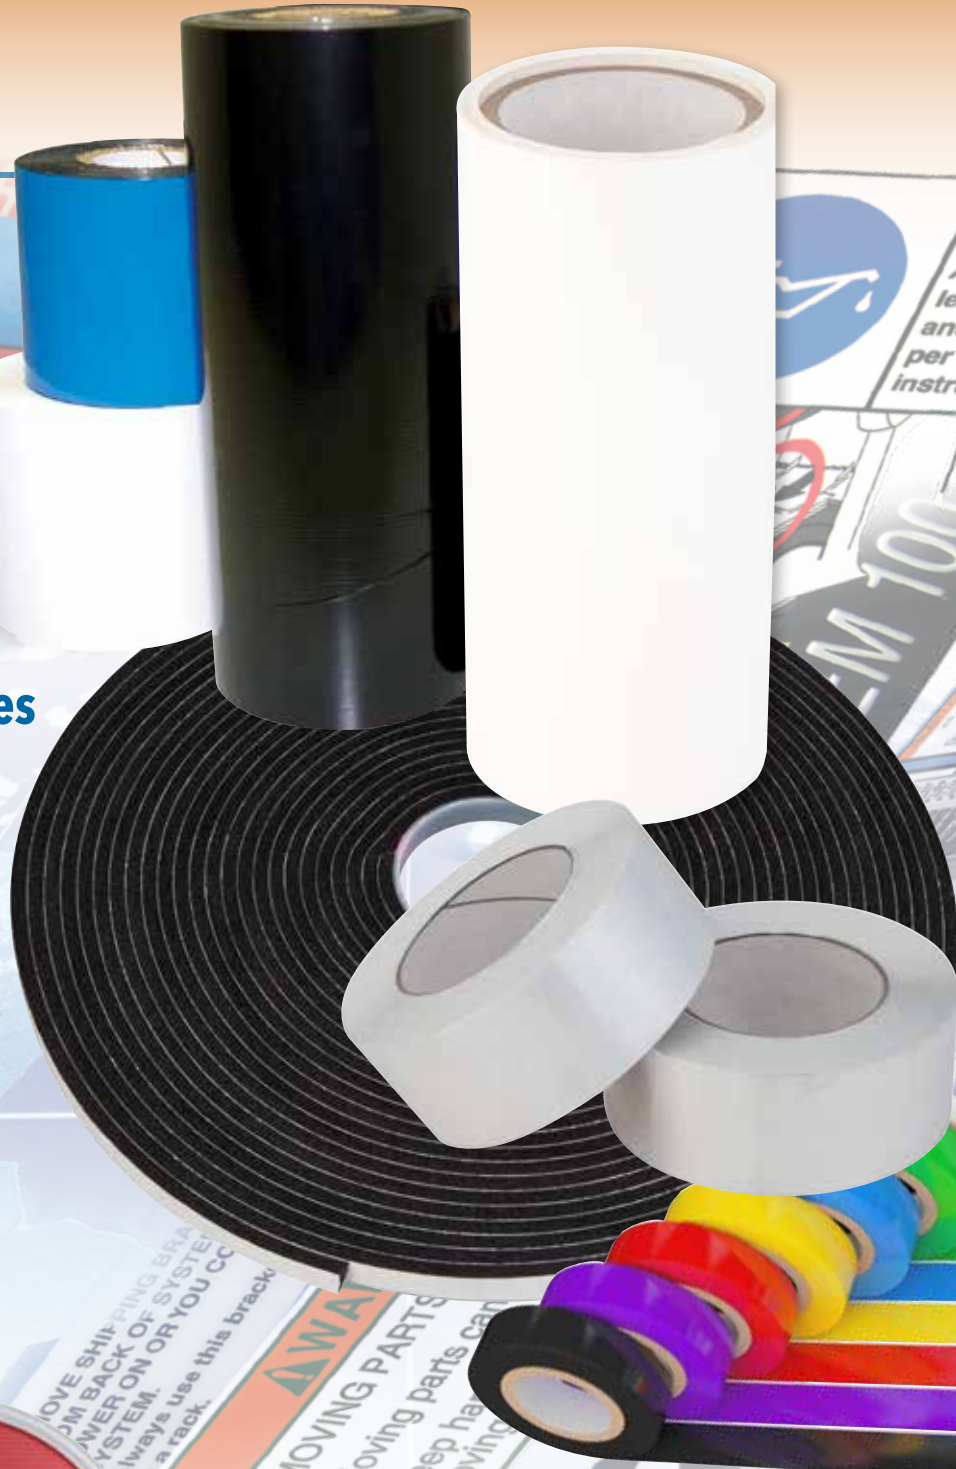

Industrial Graphics

- Badging
- CSA & UL Labels
- Decals
- Die Cut Products
- Digital Printed Labels
- Domed Labels
- Durable Labels
- Embossed Labels
- Flexo Printed Labels
- Graphic Overlays
- Holograms
- Instruction Manuals
- Large Format Printed Graphics
- Laser Sheets
- LCD Displays
- Membrane Switches
- Nameplates
- NFC/RFID Labels
- Printed Electronics
- QR Labels
- Screen Printed Labels
- Shrink Sleeve Labels
- Tags
- Tamper Evident Labels
- Thermal Printed Labels
- Thermal Transfer Labels
- Thermal Transfer Ribbons
- Warning Labels

Pressure Sensitive Tapes & Adhesives

- Dual Lock®
- Security & Packing Tapes
- Velcro®
- VHB® Tapes
- Conspicuity Tapes
- Graphic Tapes
- Double-sided Foam Tapes
- Embossed Tapes
- Low Surface Energy Adhesives
- Solvent Resistant Adhesives
- Sound & Vibration Dampening
- High Heat Resistant Adhesives
