

ENVIRONMENTAL POLICY

Future Fitouts regards Environmental Management as a fundamental aspect of a sound business foundation. The management of Future Fitouts is committed to focusing on environmental protection and how our products or services may affect the environment locally.

We identify objectives and targets we have established to protect our natural capital and prevent any potential impacts or pollution our products or services may have on the environment.

It is our policy to:

- Ensure that our people have the knowledge and other resources needed to meet our obligations and fulfil our commitment to environmental care;
- Consider the environmental impacts of products and services utilised;
- Ensure that our Company uses operating procedures necessary to identify, monitor and control the impact of our operations, the effective use of energy and the use of natural resources. We are committed to identifying ways of reducing the direct environmental impact of our operations and waste to prevent pollution;
- Ensure our operations, products and services comply with the *Environmental Protection and Biodiversity Conservation Act 1999* (Cth), in addition to meeting the requirements set down in *ISO 14001*, industry best practice codes and other standards relevant to our business;
- Ensure the suppliers, stockists and contractors we deal with are informed of our Environmental Policy and are managed to ensure their compliance with this policy;
- Communicate openly and constructively with relevant authorities and the general community to meet the needs and demands of growth that may result from our business products or services; and
- Ensure measurable objectives and targets to chart our progress.

We will monitor and evaluate our Company's performance in relation to the objectives and targets we have set to identify areas for the improvement. We will implement any changes identified to continually improve our performance, the conservation of our resources and the prevention of pollution.

We thank our workers, our suppliers and our contractors for their cooperation in this endeavour.
