Payment system companies need to offer digital ordering solutions

Consumers are driving businesses to provide digital services that enable them to order food and drink, and other products for pickup or delivery. Businesses that have already invested in digital services are growing faster than their competition and taking market share.

Partnering with Preoday will give you:

- **Speed to market:** The fully-developed, flexible platform means that you can offer digital ordering to your clients, today
- **A cost-effective offering:** Preoday's Software as-a-service platform is available for a flat monthly fee and can be effortlessly added to your portfolio
- **A proven partner:** Preoday already works with a range of businesses around the world including corporate caterers, restaurants, pubs, bars, theatres, stadiums, exhibition centres, and coffee shops
- **Global coverage:** The platform is multilingual, multi-currency and can easily adapt to local regulations such as tax. Alongside a global team, this means we are able to support clients in any region
- **Confidence in the future:** We update our platform every two weeks so that it is constantly cutting-edge

Why you should partner with Preoday

Preoday is a robust digital ordering platform that helps food and retail businesses around the world open new revenue streams and improve relationships with customers. Our technology, partnerships and expertise enable us to meet the needs of clients around the globe. Our revenue-sharing model means that as your clients grow from digital ordering, so do you.

How we start working together: 4 easy steps

1. We sign a partnership agreement outlining roles and responsibilities, as well as revenue share
2. We agree on and implement any necessary integration work
3. We select an initial client or prospect as a test account
4. After the first successful implementation, we roll out more widely with the combined offering

Digital ordering,
