- Streamlined and automated processes

By utilizing the right financial tools, you can present financial data in a way that tells your unique story.

THREE WAYS ACCTTWO DELIVERS THE FUTURE OF FINANCE AND ACCOUNTING

1. MANAGED ACCOUNTING SERVICES

Preparing financial statements. Closing the books. Implementing new systems. Recruiting, hiring, and training staff. Overseeing controls. Wouldn't you like to spend more time focused on investment opportunities, cash-flow, and revenue growth? Wouldn't you like the flexibility to acquire or divest without the personnel challenges?

By outsourcing your accounting through Managed Accounting Services, you get a team of experienced accounting professionals to handle day-to-day services that would normally be managed in-house; but without the added hassles of hiring and retaining industry experts, keeping up-to-date on the latest accounting standards, and being constantly worried about internal controls.

You gain quicker access to financials, ensure scalability, as your organization grows and have the right people in place. Your board of directors, executive team, donors, and employees see the information they need to drive the organization forward.

2. SAGE INTACCT SOFTWARE

Core financials. Multi-entity. Contract and revenue management. Project Accounting. Budgeting and planning. Seamless 3rd-party integrations. Wouldn't you like the recognized leader in best-in-class accounting software to help ensure your success?

Sage Intacct provides the powerful and accessible tools needed to get your organization running seamlessly. Cloud sharing improves communication, teamwork, and accountability across facilities and operations.
