## EXPERIENCE YOU CAN TRUST

AcctTwo has the largest dedicated development team in the Sage Intacct partner channel ready to help you. To date, we have completed more than 300 custom development projects to help our customers realize the future of finance and accounting.

AcctTwo has also created packaged modules on the Sage Intacct Platform, including:

- Period-End Allocations for Sage Intacct
- Advanced SaaS KPI Dashboard
- DrillDown - Accounting Software for Upstream E&P Companies

*See reverse for more.*

“When I look at Sage Intacct, I see it as a platform for an organization to communicate about the business between the different functions. We’ve been able to attack problems more quickly because we see the data more clearly. That was the goal at the beginning of 2018 and now we’re starting to really see the fruit of it.” - *Israel Askew, CFO, EMSI, Inc.*

# SAGE INTACCT + PRE-BUILT PLATFORM APPLICATIONS

AcctTwo development and technical services team has extended Sage Intacct with the following platform applications:

## PERIOD-END ALLOCATIONS FOR SAGE INTACCT

Do away with tedious and time-consuming spreadsheets and error-prone manual journal entries. Enjoy enhanced business intelligence and insight through automated period-end allocations by AcctTwo. Benefits include:

- **Flexibility** - Allocate to multiple dimensions at once with unlimited dimension filters. Automate reversals. Allocate groups of accounts at once in a single allocation. Allocate directly within your GAAP accounting books or to separate management reporting books.
- **Ease of Use** - Create your allocations quickly with a simple single page user interface. Run all of your allocations at once, in sequence, so that results can be used by subsequent allocations.
- **Error Reduction** - Speed up period-end processing while increasing accuracy by minimizing manual processes and offline spreadsheets.
- **Seamless Integration** - The AcctTwo Allocations module is built on the Sage Intacct platform and natively integrates with Sage Intacct like any add-on module.

## ADVANCED SAAS KPI DASHBOARD

The Advanced SaaS KPI Dashboard by AcctTwo is designed to use the native power of Sage Intacct reports and dashboards to provide key business information to subscription-based business leaders.

The dashboard tracks metrics such as: Bookings, Billings, Committed Monthly Recurring Revenue (CMRR), Customer Acquisition Cost (CAC), Churn, and Customer Lifetime Value (CLTV). All metrics are automatically calculated by the dashboard as you process and invoice customer orders in Sage Intacct.

**DRILLDOWN**  
Next Generation Oil & Gas Software

## DRILLDOWN OIL & GAS SOFTWARE

DrillDown, from AcctTwo, brings you the first and only true cloud E&P accounting system with joint interest billing capabilities for independent oil and gas operators. It is the only oil and gas accounting software built with 21st century technology and a modern interface, and the only platform endorsed by the AICPA.

“AcctTwo’s team has been instrumental in meeting our needs and providing us with the training we needed to get up and running. The AcctTwo Allocations Tool takes a ton of manual work off of our plate, allowing us to focus on more important tasks.” - *Laura Gray, Controller, Jewish Board of Family & Children’s Services*
