

PARTNERS IN PROTECTION

Reusable Branded Facemasks to Protect the People Essential to Your Business.

Produced by

DEANHOUSTON+ & **EXHIBIT**
LOGISTICS

DH+ & Exhibit Logistics converted its Impres 4320 direct-to-textile printer to begin full-scale production of protective reusable masks. This industrial-sized printer is capable of printing 2,500 masks per hour in any design your organization wants.

Mask Design

- **Branding:** printed with company specific branding or any themed design you like
- **Customized:** design services available on demand to create any theme or design you prefer
- **Designs for Families:** with gender and age-appropriate designs available for children, young adults and adults
- **Style:** multiple styles available depending on your preference

Fit and Function

- Sized to achieve snug and comfortable fit
- Dual-barrier design to help prevent risk of exposure to and distribution of airborne pathogens
- Inline pocket sewn on the inside for use of medical or professional grade disposable filter for additional protection (filters sold/supplied separately)

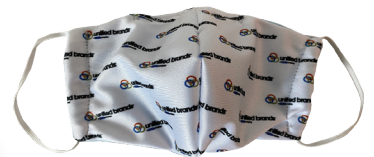

Available Styles

Double Sheet Cotton Cover
(No Printing / color fabric as available)
(Discounts for Volume Orders)

Single Sheet Polyester Cover with Single
Sheet Cotton Barrier & Filter Pocket
(Discounts for Volume Orders)

Single Sheet Polyester Cover with Double
Sheet Cotton Barrier with Filter Pocket
(Discounts for Volume Orders)

Does not include filter for pocket. Cloth face coverings are not surgical masks or N-95 respirators. Exhibit Logistics masks comply with CDC recommendations for cloth face coverings to slow the spread of the virus. Exhibit Logistics' masks are for general social distancing use only. Pocket can accept any filter media of your choice. Exhibit Logistics makes no claim of medical certification or accepts any liability of use.

Partners for the Common Good.

To express our collective support and gratitude for health care workers, for every ten masks we produce for you, DH+ will donate one mask to nurses and other caregivers who are working at local health care facilities, nursing homes and retirement communities.
