Flat Roof Skylights

The innovative and energy-efficient solution for flat roofs.

Many living spaces in flat roof homes get very little natural light, but with a VELUX Flat Roof Skylight, you can easily transform virtually any space with daylight.

Flat Roof Skylights start on page 30

CurveTech

VELUX Custom-Sized Skylights

Taking Your Projects to New Dimensions

VELUX now offers a fully-extended line of custom-sized venting and fixed skylights. With three options to choose from for venting and two options for fixed, you're sure to find a skylight that will accommodate any project you take on.

For ordering information and to read more about our custom skylights, see product page.

Delivery time approximately 8-10 weeks for product and blinds *Assumes 0° roof pitch. **The installer is responsible for curb-flashing material and installation of the curb to the roof. Installer may want to consider the use of a water diverter above the longlight system when installed on a pitched roof.

Other longlight systems available for roof pitches between 10°-25° call 1-844-994-6867

Architectural Skylights

VELUX Modular Longlights

Model - VMS Ventilating Skylights

Ventilating system accessory package (control panel, switch and rain/wind sensor) included in all ventilating systems

Based on a modular concept, all components are prefabricated to ensure consistent quality, fast installation, and a perfect fit every time.

Type 10 Glass is standard on all configurations. Type 11 and Type 16 Glass options are also available.

Bringing light to life

Non-dealer disclaimer

List prices shown do not include shipping and handling cost, delivery cost by your local VELUX Dealer or applicable sales tax. Final unit pricing can be 10–15%+ higher depending on your location, services provided and final delivery of the skylight to the job site. Many of the skylights do not include flashings or blinds. These can be purchased separately.

All VELUX skylights, roof windows, Sun Tunnel Skylights, flashing kits and blinds must be purchased through a qualified VELUX dealer. Please see the "Where To Buy" section of veluxusa.com website for a list of VELUX dealers near you.

NOTICE: ALL GLASS MAY BE SUBJECT TO UNEXPECTED AND SPONTANEOUS BREAKAGE in rare circumstances due to imperfections in the glass that are undetectable during the manufacturing and inspection process by the manufacturer of the glass and VELUX.

VELUX offers the choice of laminated or tempered glass skylights. Impact glass and comfortplus glass are all types of laminated glass. Comfort glass is a type of tempered glass. Laminated glass is a combination of two or more glass sheets with one or more interlayers of plastic (PVB) or resin. In case of breakage, the interlayer is designed to hold the fragments together. Tempered glass does not contain an interlayer to hold the fragments together. Instead, tempered glass is designed to break into small, pebble-like pieces. When tempered glass breaks, pieces of glass come loose and may strike an individual.

CONSULT LOCAL REGULATIONS AND/OR BUILDING MATERIAL CONSULTANTS TO DETERMINE WHICH TYPE OF GLASS IS RIGHT FOR YOU OR IF LAMINATED GLASS IS REQUIRED IN YOUR APPLICATION.

The VELUX Group creates better living environments with daylight and fresh air through the roof. The VELUX product program contains a wide range of roof windows and skylights, along with solutions for flat roofs.
