CASE SAVER

The Pillow Factory's Case Saver™ program allows more time for the work that matters most, patient care.

The Case Saver compression process removes air from pillows, allowing a smaller case to hold more pillows. And a convenient dispenser feature is ideal for tight storage areas.

The compression method allows quick return to full loft within one hour. This all adds up to consideration for freight cost savings, staff time to handle cases, and space savings in delivery areas.

Fully Compressed

Partially Expanded

Fully Expanded

Our FreshStart® Personal Pillows set the quality and performance standards for the entire industry. Patients will find maximum comfort on these single-patient-use pillows with breathable non-woven covers, and staff can trust that fresh pillows are ideal for cross-contamination concerns.

Furthering our commitment to customer inventory management needs, our Case Saver™ program assists in saving time, space and waste. Pillows are individually compressed, wrapped, and dispensed easily from high capacity cases.

- Soft and breathable non-woven ticking
- 100% Recycled ecoCLOUD® fiberfill is environmentally responsible
- Individually wrapped and compressed for clean, simplified storage
- Convenient dispenser-box packaging
- Easily configured for propping

Reusable Pillows

Choosing the right pillow is more important than ever before when considering increased patient satisfaction, with necessary performance and protection. The Pillow Factory offers the largest selection of reusable pillows in the market, using high-quality materials and high-performance design to meet every need. Our pillows stand up for durability and protection without stepping down comfort.

Your patients will rest in comfort and support, while your purchasing team will enjoy the value of multiple-use pillows. Environmental Services and Infection Prevention will appreciate the benefit of soft surface products that can withstand appropriate cleaning and disinfection.

SRC® Soft Resilient Core

1. Fluid resistant and fluid-proof covers easily wipe clean for extended pillow use.
2. The SRC® Soft Resilient Core system extends pillow life by maintaining a supportive structure longer.
3. 100% recycled ecoCLOUD® fiberfill is environmentally responsible.

The Pillow Factory family of reusable pillows feature the SRC® Soft Resilient Core system as well as high quality fluid-resistant and fluid-proof fabric covers which can be easily wiped clean. SRC pillows add support and resiliency to resist wear, crumbling and breakdown while providing superior patient comfort. Use after use, these pillows retain the majority of their original height, resulting in better value per patient day

RevolutionaryCARE®

With quick loft recovery, exceptional value, and longevity, the RevolutionaryCARE® pillow will revolutionize expectations for years to come.

- Ideal for use as a head pillow or for positioning and offloading
- Polyester ticking supports ease in use and care
- Product supports safety and infection control initiatives with impregnated antimicrobial protection, fluid-proof fabric ticking, and flame-retardant components
