

Van Metre
5K RUN
EST. 1992

March 13, 2020

Dear Friends, Family, Partners and Neighbors,

I am sure that it comes as no surprise to you that there is genuine concern about the Coronavirus (COVID-19) outbreak and the impact it has had and could potentially continue to have within our country. There is growing concern about larger gatherings and events, concerts, travel and unnecessary exposure in general. The consensus is that these things should be avoided for the time being if possible in an effort to limit exposure to, and possible transmission of, the virus.

Our top concern and priority is the health and safety of everyone who participates in the Van Metre 5K Run. For that reason, we have decided that it is in the best interest of the community and those involved to postpone the Van Metre 5K Run on April 18th. Our intent is to reschedule at a later date as long as the health and safety of the community are not compromised.

Thank you all for your continued support of the Van Metre 5K Run and Children's National Health System. Please refer to our website www.VanMetre5KRun.org for the most up to date information regarding the race postponement.

Sincerely,

Jeannie Van Metre
Race Director

SUPPORTING  Children's National.
