

How do you transform classroom engagement to deliver increased productivity and participation?

With Vivi's classroom engagement solution, a raft of made-for-education features improve classroom efficiencies and save time across your whole school. Our cost-effective solution delivers a leading technology experience, regardless of device or display models, to increase student engagement through the creation of a more student-centred learning environment.

SHARE

Any screen wirelessly from any device to any classroom display

VIDEO

Play online or local videos

CAPTURE
