

CYBER SECURITY

Real Estate Professionals

Protect your clients, your reputation, your personal safety and your professional practice with commercial-grade cyber security solutions.

Exclusive, 25% discount for SDAR members.

The Four Fundamentals of Cyber Security

Complete the pre-purchase forms linked below to receive a no-obligation quote and get started today.

Protect Your Devices

Smartphones, computers, laptops, and tablets need protection from viruses, intruders, tracking, data loss, spying, and more. With our 24x7 real-time protection from F-Secure, you are protected preemptively and automatically.

\$50/yr. per device.

Always Use a VPN

Use a VPN to automatically encrypt your online activities - shopping, banking, browsing, email - all of it is secure, including over public Wi-Fi's.

\$65/yr. per device.

Use a Digital Vault

Some documents and information shouldn't be on the cloud. Digital vaults use real servers to encrypt, store, and share sensitive files with free apps and a browser.

\$50/yr. for 20gb
