

Make PowerShell a real solution.

FOR YOU AND YOUR TEAM.

”

"ScriptRunner is a master of organizing, categorizing and delegating scripts."

Adam "The Automator" Bertram, PowerShell MVP

AUTOMATION

with scripts and easy integration of monitoring, ITSM, workflows and applications.

DELEGATION

of recurring routine activities to the service desk and end users.

CONTROL

all activities related to PowerShell and the use of scripts by means of policies.

SUPERVISION

and control over all processes, clear dashboards and complete reporting.

CENTRALIZE

all PowerShell scripts, policies, logs, and reports in one place.

DEVELOPMENT

of PowerShell scripts in the team and easy input with customizable script collections.
