

EDUCATOR LEARNING CENTER

Engaging online professional learning delivered when and where you need it.

Professional learning must align with district priorities and teacher needs, but to fully support teacher engagement it also needs to be accessible and sustainable.

Hanover's Educator Learning Center (ELC) combines the quality of in-person professional learning with the convenience and affordability of online professional development. Our adaptive approach provides best-in-class learning modules that reinforce and sustain training on your district's professional learning opportunities.

IMPROVE TEACHER EFFECTIVENESS

Educator Learning Center uses engaging, interactive content to support teachers on the critical needs facing districts – at the time and place that works best for them.
