

GUIDE TO POPTAIL PAIRING

PLUS POPTAIL RECIPES!

We've spent a whole lot of hours making pops.

Sometimes when we were working late, we would have leftover ingredients. Sometimes those ingredients would be combined with alcohol. And sometimes we'd have a few extra pops sitting around to keep these concoctions cold. We didn't know it, but this is when the Poptail was born. Poptails are for adventurers, lovers and rebels alike. Go on and try one!

SO WHAT'S POPPIN'?

Obviously we think Poptails are pretty cool. At our bar at Ponce City Market in Atlanta we have gotten good at figuring out what Pop goes best in what drink and we want to share some of that knowledge with you! Use these pairings and recipes at your next get together and we promise you will have everyone talking about it even after they leave. Whether you're into cocktails, sparkling wines, or beer we have some great suggestions that are a guaranteed hit.
