

# SafeCase: Safety, Battery, Warranty, Regulatory and Compliance

---

Review the Quick Start Guide before using your SafeCase. For more information visit [privoro.com/support](http://privoro.com/support). Retain documentation for future reference.

## Safety and Handling

See "Safety, handling and support" in the SafeCase User Manual at [privoro.com/support](http://privoro.com/support).

## Battery

**⚠ WARNING:** Never dispose of batteries in a fire because they may explode. Your Privoro device contains a lithium-ion battery. Attempting to replace your device battery may damage the battery, which could lead to overheating, fire and injury. The lithium-ion battery in your device should be serviced or recycled by Privoro or an authorized service provider and must be recycled or disposed of separately from household/municipal waste. Dispose of batteries according to your local environmental laws and guidelines.

## U.S. and Canada Device and Battery Recycling

Privoro has partnered with Call2Recycle for your device and battery recycling needs. To find a recycling location near you, go to [call2recycle.org/locator](http://call2recycle.org/locator) and enter your zip code.

## Medical Device Interference

This product works with the iPhone 7 and iPhone 8. iPhone contains magnets that may interfere with medical devices. For more information see "Important safety information" in the iPhone User Guide.

## Privoro One-Year Limited Equipment Warranty Summary

Privoro warrants that the Product will be free from defects in materials and workmanship for the Limited Warranty Period of one year from the date of original fulfillment to customers. During the Limited Warranty Period, Privoro will, at its option: (1) provide replacement parts necessary to repair the Product, or (2) repair the Product or replace it with a comparable product. Replacement parts and replacement Products will be provided only within an authorized Distribution Territory; will be new or serviceably used, comparable in function and performance to the original part or Product; and will be warranted for the remainder of the original Limited Warranty Period or, if longer, 90 days after they are shipped to Customer. Available warranty service options are dependent on the country in which service is requested and may be restricted to the original country of sale. Call charges and international shipping charges may apply. To obtain warranty service, go to [Privoro.com](http://Privoro.com) and click on the Contact link from the top navigation. To view the limited warranty in its entirety, go to [privoro.com/warranty](http://privoro.com/warranty).

## Regulatory & Compliance

Regulatory information specific to SafeCase is available at [privoro.com/legal](http://privoro.com/legal) and in the SafeCase User Manual.

## FCC Interference Statement (Part 15.105 (b))

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

(1) Reorient or relocate the receiving antenna. (2) Increase the separation between the equipment and receiver. (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. (4) Consult the dealer or an experienced radio/TV technician for help.

## FCC Part 15 Clause 15.21

**CAUTION:** Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

## FCC Part 15.19(a)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

## ISED RSS-Gen Notice

This device complies with Industry Canada's license-exempt RSSs. Operation is subject to the following two conditions:

(1) This device may not cause interference; and (2) This device must accept any interference, including interference that may cause undesired operation of the device.

In order to comply with FCC/ISED RF Exposure requirements, this device must be installed to provide at least 20 cm separation from the human body at all times.

Le présent appareil est conforme aux CNR d'Industrie Canada est autorisée aux deux conditions suivantes: 1) l'appareil ne doit pas produire de brouillage; 2) l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est

Afin de se conformer aux exigences d'exposition RF FCC / ISED, cet appareil doit être installé pour fournir au moins 20 cm de séparation du corps humain en tout temps.

PRIVORO®

# SafeCase: Safety, Battery, Warranty, Regulatory and Compliance

## Safety

SafeCase is Safety tested to UL/CSA/IEC/EN 60950-1 2nd Ed with latest Amendments/Revisions.

## EU Compliance Statement

Privoro hereby declares that this wireless device is in compliance with the essential requirements and other relevant provisions of the Radio Equipment Directive 2014/53/EU, as applicable.

A copy of the EU Declaration of Conformity is available at [privoro.com/legal](http://privoro.com/legal) to review the legal, regulatory and compliance documentation.

## European Union—Disposal Information

The Wheeled Bin symbol means that according to local laws and regulations your product and/or its battery shall be disposed of separately from household waste. When this product reaches its end of life, take it to a collection point designated by local authorities. The separate collection and recycling of your product and/or its battery at the time of disposal will help conserve natural resources and ensure that it is recycled in a manner that protects human health and the environment.

## Class 1 Laser Information

This device is classified as a Class 1 Laser product per IEC60825-1:2007 and IEC60825-1:2014. This device complies with 21 CFR 1040.10 and 1040.11 except for deviations pursuant to Laser Notice 50, dated June 24, 2007. This device contains a laser that could be damaged during repair or disassembly, which could result in hazardous exposure to infrared laser emissions that are not visible. This equipment should be serviced by Privoro or an authorized service provider.

## Specific Absorption Rate (SAR) Certification Information

This device is a radio transmitter and receiver. It is designed and manufactured not to exceed the exposure limits for Radio Frequency (RF) energy set by the Federal Communications Commission (FCC) of the U.S. Government.

These FCC RF exposure limits are derived from the recommendations of two expert organizations: the National Council on Radiation Protection and Measurement (NCRP) and the Institute of Electrical and Electronics Engineers (IEEE). In both cases, the recommendations were developed by scientific and engineering experts drawn from industry, government and academia after extensive reviews of the scientific literature related to the biological effects of RF energy.

The RF exposure limit set by the FCC for wireless mobile devices employs a unit of measurement known as the Specific Absorption Rate (SAR). The SAR is a measure of the rate of absorption of RF energy by the human body expressed in units of watts per kilogram (W/kg). The FCC SAR limit incorporates a substantial margin of safety to give additional protection to the public and to account for any variations in measurements.

For more information about SAR, visit:

- [fcc.gov/general/radio-frequency-safety-0](http://fcc.gov/general/radio-frequency-safety-0)
- [fcc.gov/encyclopedia/specific-absorption-rate-sar-cellular-telephones](http://fcc.gov/encyclopedia/specific-absorption-rate-sar-cellular-telephones)

Before a new model device is available for sale to the public, it must be tested and certified to the FCC that it does not exceed the SAR limit established by the FCC. Tests for each model are performed in positions and locations (for example, at the ear, worn on the body, or worn on the wrist) as required by the FCC. Use of other accessories may not ensure compliance with FCC RF exposure guidelines.

For typical operation, this device has been tested and meets FCC SAR guidelines. The FCC has granted an Equipment Authorization for this device with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines.

SAR values for body-worn operations are measured when used with an accessory that contains no metal and that positions the device a minimum of 1.5 cm from the body.

The FCC safety limit for body-worn SAR is 1.6 watts per kilogram (1.6 W/kg).

This device has FCC ID: 2APWUPM02SC and Model Number: M0002. The FCC ID is also printed somewhere on the mobile device.

SAR information for this and other devices can be found on the FCC website at: [fcc.gov/oet/ea/](http://fcc.gov/oet/ea/)

Follow the instructions on the website to use the FCC ID to find SAR values for the device.

SAR information for this device can also be found on Privoro's website at: [privoro.com/legal](http://privoro.com/legal)
