

HANGARS

by

AH01

Maximise Clearance

Widths of 12m-30m+ with unlimited lengths & custom heights.

Alpine hangars are designed to protect the investment you have made in your aircraft. If you are looking for a hangar with maximum width & clearance, Alpine's robust structures & uncluttered birdproof clearspans will keep your aircraft well protected.

The Alpine emphasis on strength and simplicity makes our hangars ideal for most applications, including for personal aircraft storage or rental sites at airports. Whether it's for your farm or for a commercial operation, Alpine can supply a custom designed hangar to suit your requirements.

For a free personalised quote, contact Alpine today.

AH02

Simple, Strong & ...

The clear & uncluttered Alpine designs will maximise the interior space of your hangar.

The benefits of an Alpine hangar will give you many reasons to appreciate the investment you make:

- ✓ All of Alpine's buildings are designed for your site specific wind and snow loadings, ensuring you of a long-lasting investment.
- ✓ Many extra features such as closure flashing, canopies and clearlighting can be included in your Alpine hangar.
- ✓ Most types of popular hangar doors can be coupled with an Alpine hangar; although most of our clients prefer to deal direct with a specialised door company to source these.
- ✓ Standard widths are 12m, 15m, 18m & 30m, but with unlimited lengths, custom heights, & clearspan widths from 12m to 30m+, Alpine hangars will accommodate most non-commercial aircraft.

AH03

... Fast to Install

The Alpine range is designed and engineered to your specific location.

Phone 0800 428 453 or visit www.alpinebuildings.co.nz for more information

AH04
