Free Yourself From Lagging IT Projects And Teams

Achieving your vision for high-performing technology and results-driven teams can be a challenge. Whether you need expert guidance or talent for your systems, security, or data initiatives, **Vaco brings the people and skills necessary to put IT strategy into action.**

Vaco's Technology Solutions delivers hands-on, project-based consulting and operational support for your full range of IT-enabled operations. Our expert consultants blend seamlessly with your team to enable cohesive operations, accelerate project delivery, and transform your business.

Immediate value, "in-the-trenches" expertise.

Our experienced professionals bridge the gap between technology and business, solving challenges in the most complex areas:

- ▶ ERP, EPM, BI, CRM Implementation/Optimization
- ▶ Software Selections
- ▶ Program/Project Management
- ▶ IT Strategy
- ▶ Business Transformation
- ▶ Business Analysis
- ▶ Process Optimization
- ▶ Interim IT Leadership
- ▶ Infrastructure Support/Cloud
- ▶ Application Development
- ▶ Data Governance/Analytics
- ▶ Testing & Software Quality Assurance (off/on shore, automated or manual)
- ▶ Network Engineering
- ▶ Mobile, UI, UX
- ▶ Database/Systems Administration
- ▶ Solution Architecture
- ▶ Cybersecurity

The people side of technology.

We engage hands-on consultants with the competencies, expertise, and cultural alignment required to assess and execute projects, augment your teams, and guide your strategic initiatives. We firmly believe in the difference between "any resume with XYZ will do" and "we need a consultant who can navigate an ambiguous environment." We put project situation and client culture at the epicenter of our efforts.

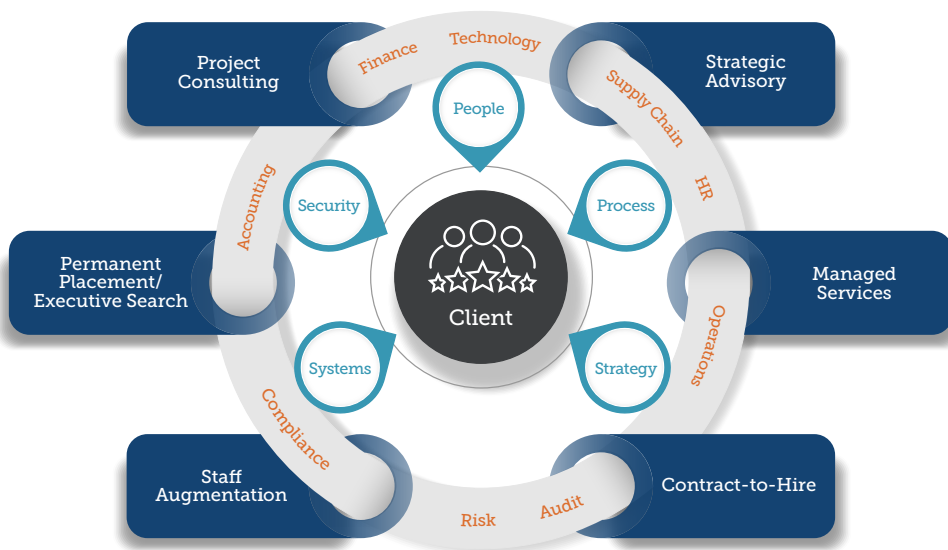

I had the pleasure of working with Vaco on a technology project for contracting services. It has been a major success and exceeded our expectations. I look forward to our next engagement and appreciate all the hard work to make our goals come to fruition. - **STEVE VARNER, PRINCIPAL DATA ENGINEER, MOTOROLA SOLUTIONS**

From Full-Scale Strategy to All-Star Talent, Vaco's Here to Help

Business needs come in all shapes and sizes. Vaco delivers the ideal solution for whatever your challenges may be, whether deploying managed services or an implementation team, providing strategic guidance or assessments, placing a highly skilled technology executive or professional, or simply augmenting your staff to provide needed lift for underway projects.

Our full continuum of services; your business challenges solved.

People, process, strategy, systems, and security: the keys to today's success and the foundation for tomorrow's growth. Vaco brings the expertise to help you succeed in any - or all - of these areas.

Endless opportunities to delight, with one goal in mind.

Your success is our top priority. Whenever you choose Vaco - whatever the business need may be - our depth of experience and breadth of resources deliver value while partnering with you to achieve your goals. We're a local firm with global talent, providing a "Big 4" consulting relationship without the "Big 4" operating model and pricing.

Who is Vaco?

Vaco is a global talent & solutions firm with more than 40 offices around the globe. We're a different kind of company, built on an uncommon culture that values personal empowerment and a fierce entrepreneurial spirit. We're here to help the best and the brightest industry talent find the freedom that comes from fulfilling their professional potential with companies that value human connection.
