

Start your graduate career with Intelliflo

Intelliflo Graduate Scheme 2017

Intelliflo provides web-based software for the UK financial services industry

Our graduate programme can set you on a career path for life. It is all about taking responsibility, being entrepreneurial and working on real projects whilst learning our business. Our programme is designed to develop your professional career, over a 2 year period, where you will excel and help shape our future business. Join us on our programme and you will gain an insight into how we market ourselves to the financial services industry, sell our software solution, successfully onboard clients to our solution and provide the best in class client support.

If you have a flair for technology you will experience first-hand the full software development life cycle from capturing requirements in business analysis, through code, quality assurance and deployment. Help us create and deliver innovative solutions using the latest Microsoft technology. You may even build and maintain our internal IT infrastructure.

Together we will map out a personalised schedule of four, six month assignments in four areas of our business that fits with your skills, strengths, interests and career aspirations. Business areas include:

- Finance
- Marketing
- Data Migration
- Account Management
- Training
- Sales
- Business Analysis
- Testing
- Software Development
- Internal IT Support
- Business Intelligence
- Implementation and onboarding
- Client Technical Support

Salary, Benefits and Training

- We know salary isn't everything but graduates start on £27,000 and will receive regular reviews during the 2 year scheme. You will also be eligible for our company benefits.

In addition to on the job learning, we offer:

- Comprehensive induction to our business including departmental overviews, financial services industry training, product training and shadowing with one of our clients to give you a real insight into an Advisor's business
- Support system through line management and regular mentoring with great experience, expertise and advice
- On line training available 24/7
- Study support for professional qualifications such as Diploma in Regulated Financial Planning or Microsoft Certification

Why join Intelliflo?

You will be joining one of the UK's fastest growing SaaS companies. Intelliflo are committed to supporting personal development and our graduate programme is a fantastic way to kick start your career. You will be working in a culture of continuous improvement where ideas are welcomed and hard work recognised. A competitive salary and benefits package is available along with a variety of company incentives. We are based in the heart of Kingston with easy access to both Surbiton and Kingston train stations.
