

Amazon S3

World-class document storage with Intelliflo and Amazon S3

Overview

Intelliflo makes storing your documents and data in the cloud simple, safe and secure.

Through Intelligent Office you will have access to Intelliflo's highly scalable and reliable storage infrastructure, meaning that you'll never have to back up your files to your desktop or laptop again.

Intelliflo offers three storage options options

Bring your own storage

You can connect your own storage backend to Intelligent Office. Intelliflo supports Amazon S3*, meaning that you can use your existing account and configure it with Intelligent Office. This option is free, you will just need to manage your own storage, access to and the payments with Amazon Web Services.

Intelliflo enterprise storage

Building on our standard storage option, enterprise storage offers further flexibility to configure the storage to your specific needs, with options such as security policies, document lifestyles and tiering options. This incurs additional costs, but please speak to us for more details.

Intelliflo standard storage

This is the default and recommended option. 8GB of storage comes with a low fixed monthly cost of £7.50, with each additional GB thereafter costing £0.12. Your storage is effectively infinite – there is no need to contact us to manage storage limits. Intelliflo will also manage your configuration, security and monitoring of Amazon S3 via our certified Amazon Web Services practitioners.

The benefits

- ✓ Access your data and documents anywhere
- ✓ Complete enterprise grade security including full encryption
- ✓ Document backup in case of disaster recovery needs
- ✓ Resilient to failure and events impacting the entire datacentre
- ✓ No need for support and maintenance
- ✓ Superior document management – attach documents to client and plan records
- ✓ Low latency and high throughput performance
- ✓ Durability of 99.99% of documents
- ✓ Designed for 99.99% annual availability
- ✓ Full document history for every document stored
- ✓ Compliant with national data sovereignty laws
- ✓ Your data remains your property

*By electing to utilise the services provided by Amazon Web Services, you contract directly with them. AWS offers its customers a Data Processing Agreement which incorporates model clauses. To view this agreement, click here. This applies to the bring your own storage option only.
