When I taught elementary school, there was always a group of us chatting about summer professional development. We'd swap ideas on which courses could help us the most in the year ahead. Now, as a curriculum director, I still love having those conversations and helping educators find the best learning opportunities. That's why I want to share a few of my favorites—ones I think you'll find inspiring, practical, and worth your time.

Marcee Harris

Director of Curriculum & Instruction

#5313: Teaching Artificial Intelligence Literacy for Students

3 Credit / \$489 / Gr. 3 - 12+

Why I recommend this course:

AI is transforming the way we navigate the world, so let's ensure students understand how to use it safely and responsibly. By prioritizing AI literacy for our students, we empower them to become informed and responsible citizens, consumers, and creators in an increasingly AI-driven world.

Note: prices are subject to change.

#5281: What Every Educator Needs to Know about the Science of Reading

1 Credit / \$289 / Gr. PK - 12+

Why I recommend this course:

The Science of Reading has revolutionized literacy instruction, and this course equips educators with foundational skills proven to significantly boost student achievement. No matter the grade level or subject you teach, learning to read and reading to learn are at the heart of what we do. This course will provide practical strategies to help you support all learners in building strong literacy skills.

#5032: Empathy & Understanding: The New Tools for Students with Challenging Behaviors

3 Credit / \$489 / Gr. K - 12+

Why I recommend this course:

Teachers are naturally empathetic, and this course provides an abundance of tools to nurture strong teacher-student relationships. You'll learn how to shift from the mindset of "Kids do well if they want to" to "Kids do well if they can," allowing you to better understand and support your students' needs. This is the perfect course to take in preparation for the next school year.

If you need any help finding your perfect course, we're happy to help. Our Learning Advisors would love to hear from you at teachingchannel.com!

**Pay As You Learn
with Course Bundles
Starting at \$77 / month!**

Whether you need to renew your license, increase your salary, or get on a pathway to an advanced degree, course bundles enable you to achieve your goals at a lower cost.

Select your 3-credit courses, spread your payments over 12 months, and with many bundles, take up to one year to register for your courses.

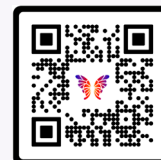

- 2-Course Bundles
- 3-Course Bundles
- Fast Track Bundle
