

Wireless Fiber Solutions for IP Camera Connectivity

Siklu delivers mmWave wireless fiber, in the uncongested frequency bands of 60,70/80GHz for Milestone video surveillance connectivity. Using advanced technology, Siklu solutions combine the reliability and gigabit capacity of fiber with the flexibility and affordability of wireless:

- Multi-gigabit capacity connecting multiple HD and 4K cameras
- Interference-free video surveillance connectivity
- 256 bit AES encryption, complete security
- Very low latency and high reliability
- 99.999% link availability
- Affordable plug & play auto-align solution for simple installation
- PoE out feature for powering up to 2 cameras directly per radio

Over 200 smart city networks deployed across the globe are built on Siklu

The City of Fort Myers selects Siklu's mmWave wireless for its **Video Surveillance System**

Siklu **backhauls hybrid HD-CCTV, smart parking and public Wi-Fi** in the Town of Vail, CO
