THE BIGGER PICTURE

MegaPressG

AVAILABLE UP TO 4"

PRODUCT APPROVALS

UPC® ICC-ES PMG®  ASME B31

PRODUCT FEATURES

- Carbon steel alloy with corrosion-resistant zinc nickel coating
- Sizes and configurations from ½" to 4"
- HNBR sealing element for fuels and gases
- Graphite separator ring engineered to withstand high temperatures
- Most application approvals of any carbon steel press fitting system
- For use with ASTM Schedule 5 to Schedule 40 carbon steel pipe
- Configurations include elbows, couplings, no-stop couplings, reducers, tees, reducing tees, adapters, reducing adapters, unions, caps and flanges
- Connections in 16 seconds or less
- Can reduce labor costs by as much as 60-90%
- Smart Connect® technology helps identify unpressed connections
- Approved for underground use according to local code

"It was the perfect scenario for this project. No hot work, and we saved all that weld time... being able to press a joint and move on is a big difference. It made a really nice and clean job."
- Phil Dipaola, Project Manager, Limbach Inc.

"The time it takes with Viega, I can basically do it twice as fast as compared to threading. There are no leaks if you put it in properly, so it's a great product. Way better than anything else."
- Jim McCarthy, Foreman, New England Plumbing

"The first new barn we built has been in operation for about eight months. You can see the gas pipe rusting some – but the MegaPress fittings look brand new!"
- Barry Barnes, Superintendent, Rollins Construction

Press safer. Press bigger. MegaPressG

MEGAPRESS®G

The **safer, faster, cleaner** way to connect gas pipe.

PRESS SAFER. PRESS BIGGER.

Strict deadlines and tight budgets demand efficient pipe connections. With Viega MegaPressG press technology, you can make flameless connections on ½" to 4" gas pipe in 16 seconds or less. MegaPressG saves you time and labor, so you can focus on the bigger picture.

EYE-OPENING TECHNOLOGY

Innovative Press Fittings

SAFER

Flameless connections eliminate the need for hot work permits and fire watch. No open flames mean other trades can work simultaneously and safely.

FASTER

Connections are made in just 16 seconds or less, saving you up to 60-90% on labor costs versus traditional methods.

CLEANER

Unlike traditional joining methods, MegaPressG doesn't use any consumables, threading oils or breakaway plastic tabs, keeping jobsites cleaner.

BIGGER

MegaPressG is approved for connecting gas pipe up to 4", making it the first technology of its kind.

SMARTER

Patented Smart Connect® technology helps easily identify unpressed connections.

UP TO 4"

Secure, flameless connections on gas lines

Connections take 16 seconds or less

Available ½" to 4"
