A Business-friendly IT Company Committed to Achieving Your End-to-end Technology Needs

3
Offices
Across Florida

We Operate at the Leading-edge of Innovative IT Solutions

Since 2000, iVenture has provided superior managed IT services to satisfied clients throughout Florida.

Our business-friendly IT means you receive rapid responses and reduced downtime, all facilitated through an IT team specialized to your industry. With offices across Jacksonville, Orlando and Tampa, we have the resources and experience to elevate your business.

The Science Behind Excellence

We pride ourselves on taking a human-first approach to business. Through this, we become familiar faces who know and care about your business. The first step to achieving this is hiring the right people. Above all, we believe in the power of customer-oriented culture, and determining the right culture fit is our top priority.

From the preliminary Predictive Index[®] assessment to multipart panel interviews to office tours and meeting the team, our hiring process is truly unique. Our method to talent management ensures effective hiring, greater opportunities for advancement and a stronger workforce. For clients, this translates to less personnel turnover, excellent customer service and superior IT solutions.

IT Experts

Value That Goes Beyond Your Typical Managed Service Provider

Productivity

The success of your business is impacted by the effectiveness of your IT environment. When your technology is working fast, you can work fast too. From server and network maintenance to upgrades and installations, you deserve to partner with a company that cares about your efficiency. We ensure you're using technology that's optimizing your workflow.

Security

Security is key not only for your business' safety, but for its perception with consumers. Don't risk the hard-earned credibility you've built with a surprise disaster. Ensure your data is secure with hourly local backups as well as nightly offsite ones, PC protection and optional private cloud hosting.

Speed

In this fast-paced world, sitting at the office isn't always possible. It's important to have tools available so that when you're on-the-go, you can still be on-the-line. With us, you'll have support for your line of business apps, virtual desktops and more ready to work when you need them. Our 24/7 dedicated service teams mean you can work anytime, anywhere without hesitation.

Stability

While you can't control everything that affects your business, IT is one part you won't have to worry about. We're committed to reducing chaos, and with a specialized technology roadmap created, dedicated principal consultant and qualified service team, you'll have a long-term management plan. You can relax knowing IT is taken care of for years to come.

Reducing IT-related disruptions so you can focus on your core strength — running your business.

Superior Service Offerings to Accomplish Your Current and Future IT Goals

As a premium managed service provider, we're committed to delivering exceptional IT solutions to help you navigate your business better. From end-user support to comprehensive management of your IT environment, our technical expertise and client-first mindset will provide you with hassle-free IT. Here's what we can do for you:

- Direct access to professional IT experts
- 24/7/365 monitoring
- Optional private cloud hosting
- Hourly local backups & nightly offsite backups
- Unlimited remote & onsite technical support
- Hardware & software support
- After-hours emergency teams
- Technology continuity planning

A Dedicated Service Team Experienced in Your Industry

We take a unique approach to servicing our clients. Unlike other managed service providers, each of our teams have a finite set of customers in a select number of industries. This means each team has a deep knowledge of the regulations governing your specific sector and the know-how to meet best IT practices.

From finance, education and real estate to healthcare, legal, manufacturing and more, we provide every industry with high-quality, reliable service.
