

JOIN

Join video meetings on-time, every time

Synergy JOIN provides a simple and intuitive way to schedule and start video meetings.

Synergy JOIN allows users to schedule video meetings in Outlook or Google Calendar without plug-ins and to join in **'one-click'** from video systems, desktop or mobile.

The broad vendor support makes it ideal for organizations with mixed environments, internal and external communications as well as homogeneous organizations that are communicating with externals using unknown video solutions.

HOW

Schedule meetings in Outlook or Google Calendar.
Join meetings with "one-click" from anywhere.

KEY BENEFITS

- ✓ Seamless video meetings
- ✓ Ease of use in both scheduling and joining
- ✓ Eliminate annoying delays
- ✓ Increased productivity, adoption and usage

SUPPORTED TECHNOLOGIES

- ✓ **Video Endpoints:**
Cisco and Polycom
- ✓ **Conference Services:**
Cisco CMS and Webex, Microsoft Teams and Skype for Business, Pexip, Google hangouts, Zoom, Bluejeans, Lifesize

KEY FEATURES

One Click

Start all meetings with one-click.

Cisco, One Button to Push (OBTP) and Polycom, Click-to-Join (CTJ) or set up dial out to any endpoint.

Mobile and browsers click to join

Forward Meetings Invites

Incoming invitations from Skype4B / Teams, WebEx, Pexip, Google Hangouts, BlueJeans, Zoom, StarLeaf and other VMR providers can be forwarded to meeting rooms and get OBTP / CTJ. Optimize your video investment

Dynamic VMR creation

Book a room or simply add pre-defined keyword (e.g. '@video') in the subject to create a unique VMR. Makes it extremely easy for anyone to create and join video meetings

End of Conference Warnings

Customizable end of conference warnings. Advantage for room and time management

Skype IVR Option

Enables external video systems to join Skype Online (S4B O365) meetings

Auto Dial Out

Configure dial-out to rooms that not support OBTP / CTJ or to rooms that prefer to be auto connected

Integrated Recording

Simply add a "recording" alias to the invitation to play or stream meetings. Supported vendors are Quickchannel, Panopto and Rec.VC

Custom Invitation

Design user-friendly invitations that reflects your company's branding

“

Synergy JOIN is a huge timesaver. Now users just go into the meeting room, push the green button and it's on!

NEW Synergy Of Things

Synergy of Things optimizes resource utilization by better understanding scheduling behavior, booking patterns and meeting attendance.

Using Synergy JOIN, CONTROL and ANALYZE together, organizations can now harness the power of their calendaring system to optimize their meeting room facilities using endpoints and in-room sensors.

No-show detection

Informs the meeting organizer when a booked room is not being used. Administrators can implement rule-based logic to de-book unused rooms. Virtual meeting remain untouched.

Booking and utilization reports

Synergy of Things leverages endpoint and sensor information to deliver analytics on usage and resource utilization. Collecting data from booked versus actual usage, the Synergy of Things platform gives insight into virtual meeting technology trends, space utilization and visibility to possible meeting-based asset management improvements.

No-show pre-warning

The Synergy of Things technology can be used to send pre-warnings to administrators and/or a meeting organizer if there is no one in the room at meeting start time.

Synergy JOIN is a server application that interfaces with enterprise calendaring systems and video conferencing endpoints to simplify the scheduling and initiation of meetings.
