

# THE LACY LEDGER

Construction news and trends, plus a little light-heartedness

Fall 2006

*A look at the inside and outside of the new Walnut Middle School in Grand Island.*

## Is Summer Over?

### *Walnut Middle School Grand Island, Nebraska*

Much to the dismay of the students, summer is over, and an enhanced Walnut Middle School stands ready, its terrazzo flooring waiting to be trampled by hundreds of feet in new shoes, classrooms stocked with supplies, and just a hint of new paint in the air.

The 11,400-square-foot addition was completed on schedule. Conquering the battles of time, snow, spring rains and hot summer days, Lacy Construction and its team of subcontractors have demonstrated once again that a dedicated team is a reliable team. Congratulations to the Grand Island Public School System, and to the students of Walnut Middle School. Our hard hats are off to you.

**1946-2006**

## Lacy Construction Standing Tall On 60-Year Foundation

**I**n 1946, Paul Abrahamson and Robert Lacy would never have imagined their new company would grow to the size it has and offer the services it currently does. Founded as a residential construction company, it soon began pursuing commercial contracts. Lacy Construction is a family owned and operated firm.

Lacy has decades of experience on multi-million dollar new construction projects, major additions, interior renovations and small unique jobs including office buildings, industrial facilities, schools, medical facilities, churches and other various structures. It is the experience of our employees that allows us to continue to build top quality projects year in and year out. Many of our staff members have been with us for over ten years, and some more than 25. Such longevity generates consistent, quality work, producing the same traits in the finished project.

Cultivating long-term relationships has been the foundation of our success. One of the best testimonies to the quality of our work and the integrity of our people is the list of our repeat clients. We understand our clients' businesses, protect their interests, and bring dedication, integrity and reliability to every job. Each project helps us to understand how to deliver services in a way that makes a difference in the quality of your building and in the performance of our service.

For more information and to view some beautiful photos of completed projects, we encourage you to visit our website at [www.lacygc.com](http://www.lacygc.com).

## Welcome Aboard, Tim

Lacy Construction is pleased to welcome Tim Rush to our team. Tim joins us as our Business Development Manager. His experience includes owning and operating a construction business in North Platte, Nebraska, for the past 10 years and, prior to that, a nine-year commitment to the U.S. Army. Tim brings with him his wife, Renea, and their two children, Andrea, 17, and Cody, 12.

## Proof Positive of Design/Build Relationships

### *Whoa & Go Truck Stop - Ord, Nebraska*

**S**even months. Barely a blink of the eye in the construction world. This, however, is all the time Lacy Construction Company, our team of subcontractors and owner Jim Trotter needed to design and construct the Whoa & Go Truck Stop in Ord, Nebraska, a 7,600-square-foot, full service truck stop that includes a full service Arby's with drive-thru. The grand opening took place on July 21st, drawing the attention of many, including Nebraska Governor Dave Heineman, who was in attendance.

This project clearly demonstrated the advantages of the design/build relationship. Our congratulations and best wishes for continued success to the Trotters.

## What's Up At Lacy?
