

# THE LACY LEDGER

Construction news and trends, plus a little light-heartedness

An overhead shot of the MFS expansion. Inset: Exterior view.

New West floor pour (Try saying that ten times fast!)

## Progress, A Definition:

- 1) positive development – *development, usually of a gradual kind, toward achieving a goal or reaching a higher standard*
  - 2) motion toward something – *movement forward or onward*
- The following is a brief offering of the progress that our projects have experienced since our last newsletter was published:*

**MFS/York/Stormor**, a grain storage and handling company, is growing and needed to expand. According to chief financial officer Doug Fargo, the company has seen three or four years of continuous growth, each year by double digits. With a greater influx of international business, they are simply out of room. The 17,500-square-foot expansion will create a more efficient space for loading containers as well as simplify their shipping process.

**New West Sports Medicine's** new orthopaedic surgery and physical therapy facility is moving along quickly now that warmer

weather has arrived. The foundation walls, basement floor and main floor concrete have all been poured with various activities taking place on and around them.

**Goodwill Industries'** kitchen remodel will be complete by the time this is published, but is only beginning as we write this. Wanting to upgrade the kitchen's functionality as well as meet new fire codes, Goodwill's leaders chose Lacy to design and build a completely new kitchen for their operations. With an aggressive three-week schedule, they will not be eating cold sandwiches for long.

**Nova Tech**, although under construction, does not afford us any good photo ops at this time. Construction has just begun, leaving us little to talk about now. However, we anticipate highlighting this project in a future issue of the *Lacy Ledger*, so stay tuned for the rest of the story.

## Varco Pruden Sales Awards

Varco Pruden Buildings district manager Rich Peterson recently presented Lacy Construction with two sales awards. The first was for the 2008 \$500,000 annual sales volume that Lacy achieved. In addition, Lacy was presented with a plaque recognizing our cumulative sales of \$1 million. Varco Pruden is a pre-engineered metal building manufacturer, and as one of its authorized dealers, Lacy offers design and construction of all types of metal building structures.

# Lacy Ledger Three-Peat

## Zanadu, Inc.'s Projects Featured on Three Front Covers

For our loyal readers with good memories, you may remember that Scott Zana, owner of Zanadu, Inc., which operates the Arby's restaurants in our area, has had

Lacy president Jerry Huismann (left) presents the framed three-peat to Scott Zana.

to see your project here? If you or someone you know is thinking of building, Lacy Construction Company can be a valuable resource in helping you get started. Call Tim Rush at 800-321-5229 to learn how Lacy Construction Company can take you from concept to completion.

projects appear on the front cover of three separate *Lacy Ledgers* over the years. We recently had these issues framed and presented them to Scott as our only front cover three-peat. Knowing Scott, we are all sure that he would like to challenge our current and future clients to "beat that!"

Speaking of *Lacy Ledger* covers, wouldn't you like
