# Tomato Grower 3-4-7

*For High Yields of Nutritious Flavorful Fruit*

Apply the following rates of fertilizer in the spring and during the middle of the growing season. Water your plants after fertilizing.

#### Container Gardening:

4" pot =  $\frac{1}{4}$  cup

6" pot =  $\frac{1}{2}$  cup

12" pot =  $\frac{2}{3}$  cup

Mix the fertilizer and potting soil together in the spring. Apply the fertilizer at the surface of the potting soil mid-season.

#### Traditional Gardening:

1 $\frac{1}{2}$  lb per 10 row ft or  $\frac{2}{3}$  cup per plant.

Apply the fertilizer 3 to 4 inches from the plants at planting and repeat during the middle of the growing season.

#### Guaranteed Analysis 3-4-7

Total Nitrogen (N) ..... 3%

1.25% Water Soluble Nitrogen

1.75% Water Insoluble Nitrogen

Available Phosphate ( $P_2O_5$ ) ..... 4%

Soluble Potash ( $K_2O$ ) ..... 7%

Derived from: Aragonite, blood meal, bone char, crab meal, feather meal, kelp meal, peanut meal and sulfate of potash.
