

3

Simple Steps

To Becoming a Penn Foster Externship Site

1

Sign & submit the affiliation agreement.

By signing our affiliation agreement, your hospital will become a part of our network of potential externship sites.

2

Match with students.

Students will reach out to you through the contact details you designate. Screen your potential externship students and decide if it's a match.

3

A Penn Foster Clinical Coordinator will contact you.

Once the student submits their paperwork, Penn Foster will contact you to go over pertinent information.

When becoming an externship site, make sure you have...

Qualified Guidance

A credentialed veterinary technician from an AVMA-accredited program or licensed veterinarian is required to supervise and mentor learners.

Clinical Resources

Access to standard veterinary clinical equipment and a variety of animal species are required.
