

## **Entech Hosts Free Panel Discussion on IT Security for Small Business and Medical Practice Owners**

Fort Myers, FL Feb. 20, 2017—IT security is critical for small businesses and medical practices. It can mean the difference between a growing, healthy business or one just waiting for a cyber attack.

According to SmallBizTrends.com:

- **43%** of cyber attacks target small business
- **60%** of small companies got out of business within six months of an attack
- **50%** report that data breaches involve customer and employee data

Join Entech from **12 to 1 p.m. on Mar. 23, 2017** for this valuable one-hour panel session and learn about IT security for a business or medical practice.

Participants will learn about:

- Current threats to their organizations
- What they need to know about physical vs digital security
- Industry-specific compliance, such as HIPAA
- and more...

Panelists include well-known industry security experts, including:

- Chris Brenes, Director of IT and Security, Entech
- Rob Krug, Senior Solution Architect, Sonicwall
- Lee Adams, PMP, QSA, CHPSE, CCSFP, President, Tampa Bay Compliance

### **Panel Discussion Registration--Act Now!**

A \$495 value, seating is limited and free to the first 100 people who register. [Register now](#) to reserve a spot.

### **About the Panelists**

**Chris Brenes** is Director of IT and Security for Entech ([www.entechUS.com](http://www.entechUS.com)). He holds multiple certifications security certifications, including a Certified Ethical Hacking (CEH) Certification, Certified Information Systems Security Professional (CISSP) certification and the CompTIA Security+ certification.
