

Streamlining the Disclosure Process

Business Wire, a trusted and recognized disclosure vehicle worldwide, and Workiva have partnered to simplify the material information disclosure process. Users of the Wdesk platform from Workiva can securely submit press releases directly to Business Wire from within Wdesk via a secure file transfer process. The integration of Business Wire within Wdesk platform improves efficiency and decreases the potential for errors in the disclosure process.

Streamlining the Disclosure Process

- Workiva is a leading provider of enterprise cloud solutions for improving productivity, accountability and insight in business data.
- Wdesk is a modern productivity suite that integrates compliance, risk and financial reporting work into a single, easy-to-use platform.
- More than 2,700 companies trust Wdesk software for their business reporting needs.

Wdesk Users:

- Export your completed file to Business Wire Connect directly from the Wdesk platform.
- Disseminate your news to the capital markets and news media outlets, quickly and securely from one controlled environment.

To receive more information about the Workiva relationship, please contact your Business Wire sales representative or email Workiva@BusinessWire.com
