

# CASUAL CASUALTIES

You make sure the whole team gets back to the house. Now make sure they get back to their families. Proper gross decon can protect your team from bringing carcinogens back to the firehouse and their homes.

STOP CANCER AT THE DOOR

# PLAYING WITH FIRE

When you put on your gear, you're ready to fight danger. But when you throw sooty clothes in the wash, you're bringing the danger back home. Improperly washing your gear can spread cancer-causing contaminants to those around you.
