

Expedite Access to a World-Class Biobank & Accelerate Your Precision Medicine Research

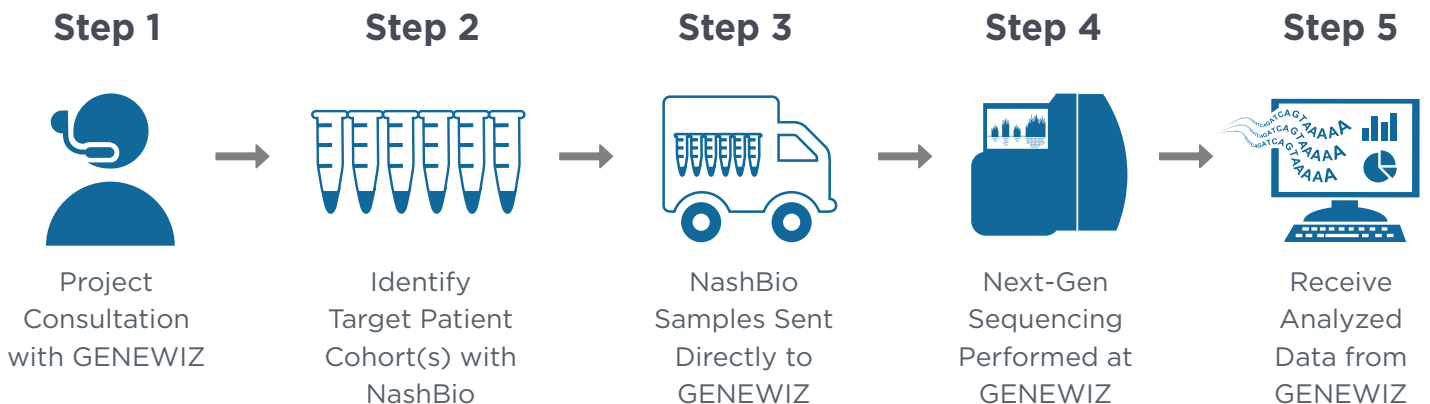

In collaboration with Nashville Biosciences, it's easier than ever to tap into the extensive genetic and electronic health record resources housed at Vanderbilt University Medical Center. Our streamlined workflow enables you to expand your sample set by identifying patient targets and having samples sent from Nashville Biosciences (a subsidiary of Vanderbilt University Medical Center) directly to GENEWIZ for sequencing.

Accelerate Your Precision Medicine Discovery

- ✓ Access to >250,000 samples and >1.8M patient records
- ✓ Comprehensive associated clinical data
- ✓ Medical & statistical expert consultation
- ✓ Industry-leading Next-Gen sequencing turnaround time
- ✓ Population-scale genomics & informatics
- ✓ Fully consented samples for research use

Streamlined Workflow from Study Design to Biological Insights

**Solid science.
Superior service.**
