

What KnowAtom Students Are Saying:

“KnowAtom amazes me because it teaches me about things I never knew about and it teaches me in an interesting way.”

~Abigail, grade 4

“I think KnowAtom is really awesome because we get to do a lot of stuff that is fun and we’re learning as we have fun.”

~Felix, grade 4

“I liked when we made simple circuits out of batteries and the lights went on.”

~Gregorio, grade 2

“Learning about forces was really awesome because it was playing with cars and learning at the same time.”

~Yoniel, grade 2

“I like science because we read a book on the subject and then do a project. Both the book and the project help me understand what we are learning about!”

~Christopher, grade 1

“I liked making the polymers because it was squishy.”

~Sean, grade 1

What KnowAtom Teachers Are Saying:

“Science is the one subject where there is always 100 percent engagement. Students are talking to each other, asking questions, and making meaningful connections with what we’re doing.”

~ Jen, 4th and 5th grade teacher

“I love the creative, hands-on activities and experiments that strengthen the concepts being taught.”

~ Ms. Mavros, 4th grade teacher

“The background information provided for the teacher is a wonderful asset to the program. I finally feel like I am teaching science!”

~ Kim, 5th grade teacher

“KnowAtom has allowed me to explain science in a fun and exciting way. My students are eager each week in anticipation of finding out what our up and coming science lessons and projects will be!”

~ Kristen, 1st grade teacher
