

Electrify America with Greenlots

No-cost charging stations
for your workplace or
multi-family building

Electrify America is investing \$2 billion over the next 10 years in Zero Emission Vehicle (ZEV) infrastructure in the United States. To enable millions of Americans to discover the joy, ease and benefits of electric driving, Electrify America plans to build a nationwide network of workplace, community and highway chargers that are convenient, accessible and reliable.

What's in it for you? If you are a property or business owner, Electrify America together with Greenlots, will provide free EV charging stations, which includes the design, installation and maintenance.

A hassle-free approach to EV charging

- **Zero capital costs.** Electrify America will pay 100 percent of the upfront capital investment for the design and installation of new charging stations.
- **Installation covered.** Electrify America with Greenlots will provide a turnkey installation service, from engineering and design to installation and commissioning.
- **No maintenance.** Electrify America with Greenlots will manage, maintain and operate the equipment and the network for the term of the agreement.
- **Future-proof technology.** You'll get the latest charging technology in the market today, with the opportunity to upgrade equipment as the market evolves.
- **Stand out for good.** Having the latest EV charging stations at your facility will increase your competitive advantage by attracting and retaining electric vehicle drivers while helping you achieve your environmental goals.

925 N. La Brea Ave, Los Angeles, CA 90038. (415) 539-3884. chargingstations@greenlots.com
