

## Expertek Named a Top 100 Logistics IT Provider by Inbound Logistics Magazine

**MARLBOROUGH, MA — April 19, 2017** — Expertek Systems, a leading provider of cloud software solutions and services for distributors, today announced it was named to the Inbound Logistics list of the Top 100 Logistics IT providers for 2017.

“To remain competitive in the rapidly evolving distribution business, companies are faced with adopting new strategies such as adding manufacturing, omnichannel, and third-party logistics capabilities, while optimizing inventory and productivity within its supply chain,” said Felecia Stratton, editor of Inbound Logistics magazine. “Expertek offers advanced cloud solutions and services that not only meet current customer demands, but also anticipate their ever-evolving business requirements, and that’s why Inbound Logistics editors have recognized Expertek as one of 2017’s Top 100 Logistics IT Providers.”

“It is an honor for Expertek to be recognized as one of the Top 100 logistics IT providers,” said Ken Mostello, CEO of Expertek. “This recognition further validates the value we deliver to distributors by providing cloud solutions and services that solve their evolving supply chain and logistics challenges.”

Each year, Inbound Logistics develops a list of the Top 100 Logistics IT Providers. IL editors research capabilities based on submitted questionnaires and other sources, then select 100 technology providers offering solutions designed to meet business logistics managers' supply chain challenges. Inbound Logistics' editors place value on choosing providers whose solutions are central to solving transportation, logistics, and supply chain challenges, and whose customer successes are well-documented. This year's Top 100 Logistics IT Providers include those serving Fortune 1000 companies, as well as small and medium-sized businesses.

The Top 100 list appears in the April 2017 issue of Inbound Logistics and is posted online at:
