

About Us

TUIO helps schools and daycares collect payments without the back-and-forth.

27,000+ invoices sent and paid.

10,800 hours saved.

4,000+ of families signed up.

Updated as of June 2019.

Why TUIO ?

- TUIO saves on average **24 minutes per invoice** by streamlining collection, processing, reconciliation, bookkeeping and receipts/statements issuance.
- Your funds processed by **regulated banks** in as little as 1 business day.
- TUIO does not store any sensitive financial information, whether it's yours or your parents'. We also can **never** access your funds, which go from one bank to another.
- **Offset the cost of credit cards** through service fees charged to parents choosing to pay with this method.
- Custom features for schools and daycare: **discounts** (siblings, referrals, etc.), **payment plans** (monthly, upfront, by term etc.), enrollment **deposits**
- **Green:** no wasted paper or ink.
- No lengthy training, no need to be a tech expert. Be up and running in **as little as 3 days**.

How Does it Work?

1. We set your programs up with you and help planning the launch.
2. Your families are given an account.
3. Our solution takes care of issuing invoices, sending email notifications and reconciling transactions without your intervention (*and often in your sleep!*)
4. You collect funds directly in your existing bank account.
5. You spend the hours saved on higher value and more enjoyable tasks.

Why Now?

Cheque usage in North America is dwindling fast, **down by 75% over 15 years**; *in fact, 20% of millennials have never ever written a cheque!*

Even if you already offer electronic payment options, TUIO can save you time by consolidating all your invoices in one place and **automating the grunt work**.

It's never a bad time to jump on: our clients go live throughout the year in as little as **3 days**

Already have postdated cheques for the year? Cheque payments **can also be tracked** in TUIO!
