

# TUIO

## About Us

Parent portal app allowing families to settle educational fees online

Used by **thousands of families** to settle **millions of dollars** of school, daycare and other childcare dues online

## Why TUIO ?

- Turnkey solution to offer **bank transfers and credit cards options** without any set up
- **Offset the cost of credit cards** through service fees charged to parents choosing this option
- No hold, no intermediary: payment processing partners send funds from families to you **directly all at once**
- **Custom tailored features** for schools and childcare: **discounts** (siblings, referrals, etc.), **payment plans** (monthly, upfront, by term etc.), **deposits**
- No lengthy training – **no need to be a tech expert!**

## How Do We Do It?

- Our two secret weapons: **automation and digitization** (going paperless)
- Our algorithm will take care of posting invoices to your families' portal, send email notices and reminders and reconcile payments received, **all without your intervention** (*and often in your sleep!*)
- All sensitive financial information is **encrypted** and passed on to the large **billion-dollar financial institutions** doing the heavy lifting when it comes to routing funds in the most secure way – so TUIO doesn't store nor has access to this data.

# Why Now?

Cheque usage in North America is dwindling fast, **down by 75% over 15 years**; *in fact, 20% of millennials have never ever written a cheque!* With the shift to digital options accelerating dramatically, think about what happens once your competitor next door modernizes their processes. **Would you rather not beat them to it?**

Even if you already offer other options, TUIO can save you time and money by having it all in one place and by **harnessing the power of automation**.

It's never a bad time to join the movement: our clients go live throughout the year in **3 days** – in fact, if we take longer, we will refund you in full!

Reluctant because you already have postdated cheques for the year? You likely have items other than tuition or regular fees that could be paid online (field trips, lunch programs, club fees, parent committee activities, fundraisers, etc.). Whether you want to start small and go from there or go all in from day 1, **TUIO will work to meet your needs!**
