CME Debuts 2018 Product and Services Guide with Digital Features for Healthcare Facilities

WARWICK, R.I. (May 30, 2018) – [CME Corp's \(CME\)](#) 2018-2019 Healthcare Products & Services Guide is now available. With more than 300 pages of valuable information for healthcare facilities, the guide includes featured products from CME's suite of more than 1,400 manufacturing partners. Additionally, the company is pleased to offer an upgraded [digital version](#) of the product and service guide for the first time.

The enhanced digital catalog includes exclusive features and content including videos, articles, eBooks, white papers, insert boxes and more to provide details on CME's range of products and services. Designed with customers in mind, the digital guide also has several navigation tools including search, color-coded category side-bars, upgraded indexes and easy-click page navigation.

"For this year's products and services guide we focused on providing additional features to enhance the customer experience. From our improved indexes for both products and manufacturers to our easy-navigation embedded in the digital version, the guide provides seamless maneuverability between all of CME's vast resources," said Cindy Juhas, CME's chief strategy officer. "The improvements made to the guide reflect the ongoing expansions and improvements to CME's product and service offerings, and we are proud to provide comprehensive resources to all of our customers."

The 2018-2019 series includes more defined categories and subcategories and features CME's latest information regarding infection-reducing products that combat healthcare associated infections (HAI). As CME's contract portfolio has grown to include most national, regional group purchasing organizations and government contracts (GPOs, RPGs, aggregate groups, FSS/GSA, DLA ECAT), so has the guide. All contract pricing and volume pricing is available upon request., To explore our upgraded digital guide, click [here](#). To order a hard copy, click [here](#).
