CME Awarded Five-Year Contract with U.S. Department of Defense

Medical logistics company adds DLA ECAT to grow portfolio, secure approvals to supply federal, state and local entities

WARWICK, R.I. (Feb. 20, 2018) – CME Corp (CME) is pleased to announce that the company has grown its portfolio of government contract offerings by securing a Defense Logistics Agency (DLA) Department of Defense contract.

CME's DLA ECAT contract increases company offerings to include military services including the Army, Navy, Air Force and Marine Corps.

The five-year, \$16,275,000 fixed-price contract includes no option periods and economic-price-adjustment as well as indefinite-delivery/indefinite-quantity for hospital equipment and accessories.

"Securing this contract expands our established relationships with the U.S. government and allows our dedicated government team to continue providing seamless service to federal, state and local organizations," said Bob Charron, government sales manager for CME. "Our team is committed to making it as easy as possible for our customers to get the equipment and accessories they need to assist patients in need and provide clinical outcomes."

CME's DLA contract # SPE2DH-18-D-0004 was awarded by Defense Logistics Agency Troop Support from Philadelphia.

"We are delighted to be expanding our offerings with the federal government by securing this contract with the Department of Defense," said CME President, Normand Chevrette. "CME's unparalleled services combined with the breadth of products we can provide ensure that this partnership will be fruitful for all parties involved."

ABOUT CME: CME is a comprehensive healthcare equipment and turn-key logistics company providing personalized support and service. With branches nationwide that offer more than 1 million medical products from over 1,400 manufacturers, CME works to be a hospital system's

complete equipment solution providing product selection, procurement, warehousing, assembly, staging, direct-to-site delivery, installation, and biomed services for all of its equipment.
