

SOLUTIONS

*Top Reasons to Switch from Peachtree to Microsoft Dynamics™ Solutions:
An Investment for Today that Can Grow with your Business*

When you make the decision to move to a new financial management solution, you make a significant commitment that demands a strong return on time, effort, and cost. Microsoft Dynamics™ is committed to helping your growing business make a decision that will carry you into the future.

WITH MICROSOFT DYNAMICS, YOUR EMPLOYEES CAN WORK EASILY WITH THE MICROSOFT OFFICE PRODUCTS THEY ALREADY KNOW AND USE – HELPING MINIMIZE TRAINING COSTS AND ENSURE RAPID GAINS IN PRODUCTIVITY.

Microsoft Dynamics solutions integrate seamlessly with Microsoft® Office applications to enhance usability and productivity. You can help eliminate the need to juggle applications with smart tags that enable quick access to Microsoft Dynamics data from Microsoft Office applications, including customer, vendor, inventory, general ledger account, and employee information.

For example, employees can take full advantage of Microsoft Office Excel® to report and analyze financial information from across all areas of your business – from spreadsheets to budgeting templates, PivotTables® to Analysis Cubes. What's more, Microsoft Dynamics allows users to populate Microsoft Office Word form letters and other documents with up-to-date customer and vendor information, as well as send customer statements, invoices, and other documents by e-mail through Microsoft Office Outlook®. All this adds up to improved communication with customers and vendors.

"I've had minimal accounting training, but Microsoft Business Solutions – Great Plains® (now known as Microsoft Dynamics GP) is so intuitive I've had no trouble understanding how it works."

Jamie Lobb, Accounting Manager, Cowboy Red

"Everybody on my staff is doing more in less time. This has enabled the business to grow tremendously without increasing the accounting staff."

Juli Valliant, Financial Manager, ATS Automation

MICROSOFT DYNAMICS SOLUTIONS GIVE YOU THE INFORMATION TRACKING AND ROBUST REPORTING YOU NEED TO SEE EXACTLY WHAT'S HAPPENING WITH YOUR BUSINESS – NOT ONLY THE BIG PICTURE, BUT THE CRITICAL DETAILS THAT CAN MAKE OR BREAK YOUR PROFITABILITY.

With Microsoft Dynamics solutions, you can make sense of increasingly complex business information quickly and accurately. Whether you're drilling down for detail on invoices or purchase orders, evaluating revenues, managing payroll, or processing multi-currency transactions, you'll have the power of automatic information updates and seamless integration across your Microsoft Dynamics solution.

You can manage your financials in the way that best suits your business with unlimited budget tracking, flexible period- or month-end closing processes, definable multi-currency management – that's just the start. A broad range of reporting and analysis tools empower your people to analyze and distribute the right information to the right people. From standard inventory reports to Excel-based budgeting, monthly reconciliations to comparative performance analyses, Microsoft Dynamics gives you the fast, deep visibility that can help you move forward.

"We review customer and transaction histories at any time we like, and we have the reporting tools that help us understand how the business performs and what action might be needed."

Robin Morvay, Manager of Finance and Administration, Mr. ShowerDoor

WHEN YOU SWITCH TO MICROSOFT DYNAMICS, YOU MAKE AN INVESTMENT THAT CAN GROW WITH YOUR BUSINESS.

Once you make the change to a Microsoft Dynamics solution, you can grow your solution without changing your underlying architecture, database management system, or data file structure. You can start with what you need now, and then add users and functionality while minimizing time-consuming costly upgrade costs.

Our solutions are built to help you make the most of your investment in Microsoft technologies. You won't need to retrain staff on a new interface, don't need to worry about migrating data, and can rest assured that your solution can integrate easily with other applications and exchange data across multiple platforms and formats. Whether you need to handle increasing transaction volume in a particular business function, add users and machines, or add new functionality, Microsoft Dynamics can handle the peaks and valleys that come with regular business cycles as well as a long-term path to growth.

"Before, we were a small company with an archaic system that was a governor to our growth. Microsoft Business Solutions – Solomon (now known as Microsoft Dynamics SL) makes it easier for us to conceive of growing our remote offices. It removes barriers."

Brian Allen, Co-owner and CEO of ATS Automation

MICROSOFT DYNAMICS SOLUTIONS OFFER THE FLEXIBLE, BROAD-BASED FUNCTIONALITY THAT GROWING BUSINESSES NEED.

We give you the flexibility and power you need to consolidate and improve business processes for accounting, distribution, payroll, project management, customer relationship management, and more. Your people get to focus on doing their jobs rather than on entering data multiple times and chasing down information from across departments. Financial processes integrate with your entire business solution to help users work more productively, reduce overhead costs, and improve accuracy.

Your inventory can be put to strategic use and replenished quickly. Accountants know who's paying on time and who's in arrears. Banking tasks incorporate transactions from across all areas of your business. Project costs and materials synchronize smoothly with accounting and purchasing processes. Our solutions also offer Web-based capabilities that deliver role-based information and processes to employees, customers, and partners regardless of location. Just as important, we make it easy and cost-effective for you to pace your growth and add the capabilities you need, when you need them.

"Since implementing Microsoft Solomon (now known as Microsoft Dynamics SL), we finally feel like we are in control of the ship, rather than having the ship control us. From processing exceptional reports to sales performance information, Solomon does it all."

Peter Green, Customer Service Manager, Genica Corporation

WE'RE DEDICATED TO SUPPORTING YOU TODAY AND DELIVERING INNOVATION FOR THE FUTURE.

You've told us what you need. And we've listened. For more than 20 years, we've worked with growing businesses of all sizes to understand how we can develop solutions that will meet your immediate needs and take you forward. Microsoft Dynamics is backed by technology that gives you the functionality you need now and the power and flexibility you need to keep pace with the future. When you make the switch to Microsoft Dynamics, you have the assurance of expert assistance from Microsoft partners and award-winning support. And as you grow, you have the assurance that Microsoft has allocated billions of dollars to the continued development of its accounting solutions. Wouldn't you rather run your company on an accounting system that is more likely to embrace and leverage new technologies as they emerge?
