REDBIRD SKYPORT RANKED #4 FBO IN THE U.S. AND THE #1 STAR FBO***Skyport Continues to Climb in the Fltplan.com Pilots' Choice Awards***

San Marcos, TX (May 19, 2015) –Redbird Skyport is proud to announce that it has earned the fourth place spot in the Top 50 U.S. FBOs category in the 2015 Pilots' Choice Awards. The awards, conducted by FltPlan.com to recognize great service, were open to a group of over 152,000 active pilots and received a record number of votes this year. Located in San Marcos, TX, Redbird Skyport finished just behind three larger metropolitan FBOs operating at Teterboro Airport, Dallas Love Field, and Dallas Fort Worth Airport.

Skyport was also ranked the #1 Star FBO, a category determined using the number of votes and airport arrival data to generate a ranking that takes into account the airport traffic and the amount of competition.

"A heartfelt thank you to all of the pilots and crew that visit us at Skyport," said John Koenreich, General Manager of Skyport FBO. "Our dedicated staff is committed to providing you with the best experience possible and we look forward to further enhancing our reputation for affordable and outstanding service for many years to come."

Skyport has been recognized through the Pilots' Choice Awards every year since opening in 2011. Last year, the FBO was ranked number 12 in the U.S. and earned both the Star FBO and ACE FBO Awards in 2013.

As a full service FBO conveniently located just outside of two great Texas cities, Austin and San Antonio, Skyport prides itself on providing the most enjoyable experience for their customers. Skyport offers both Jet A and 100LL aviation fuel, hangar space, rental and courtesy cars, a comfortable pilots lounge, and a high quality flight planning room with multiple computers.

###

About Redbird Skyport™, Inc.

Redbird Skyport is a multi-purpose general aviation facility at San Marcos Regional Airport (KHYI) that functions as a research and development laboratory.
