Distinguished Professor of Animal Science  
*Iowa State University*

# ENVIRONMENTAL RECOGNITION AWARDS

The North American Meat Institute has developed for its members' use a series of environmental tools that may be adopted to address specific plant issues.

The Environmental Recognition Award Program is a four-tier, voluntary environmental management system toolbox, coupled with an awards program that ranges from simple to complex.

## THE TIERED APPROACH

The North American Meat Institute developed a four-tiered environmental recognition program to help increase EMS development and implementation throughout the meat and poultry industry, a proven method to achieve continual environmental improvement.

The program begins in Tier 1 with a basic package of environmental policy statements and environmental policy compliance criteria, advances through more comprehensive requirements in Tier 2, incorporates a complete EMS model developed in cooperation with the EPA in Tier 3, and culminates with an ISO 14001 EMS in Tier 4.
