

# Fixed and Variable Rate Program with Motus Mileage Capture App Saves Time and Money

## Industry

Construction Equipment Supplier

## Size

1,100 employees

## Location

Headquartered in Ohio

## Solution with Motus

- Fixed and Variable Rate (FAVR) program
- Mileage capture app

## Customer Challenges and Goals

- Business vehicle program cost reduction
- Operational efficiencies for mobile employees

## Customer Story

As a long time Motus customer, this Industrial Equipment Supplier understood the benefits of the Fixed and Variable Rate (FAVR) program. They were looking for ways to increase the operational efficiency of their mobile workforce and achieve additional cost savings. To meet these objectives, the customer made the decision to implement the Motus App for automated mileage capture. With the app, they were able to improve accuracy in mileage reporting and help mobile workers automatically create IRS-compliant mileage logs without the burden of additional administrative tasks.

## Customer Results

- **22% reduction** in reported business miles, totaling **\$240,000** in **annual savings**
- IRS-compliant mileage substantiation
- **80% reduction** in mobile workforce **time spent logging miles**

## About Motus

For companies with mobile workers that drive more than 5,000 business miles per year, Motus is the premier vehicle management and reimbursement platform. Through its sophisticated configuration engine that incorporates real-time data across hundreds of variables, Motus drives significant reductions in cost, ensures compliance, and reimburses employees exactly what they deserve.
