

# Five Key Employee Benefits of Personalized Mileage Reimbursement

## **Make work life better for your employees and their managers.**

For companies looking to transition from their vehicle program to personalized mileage reimbursement, it's important to consider how the change will be received by your employees. It's true — change can be challenging. With Motus, you can rest assured that we're here to keep your employees happy. Take it from our customers.

**Eliminate manual processes. Free up time for your employees with automated mileage tracking.**

““ Motus has been a Godsend for automatic tracking and use. I have been able to free up time with work and family.

— Sales Representative, Medium Enterprise Telecommunications Services Company

**Strengthen trust between employees and their managers.**

““ Using Motus has improved our relationship with our most important employees, those who are out servicing our customers. Motus assures they are reimbursed properly for all the miles they log.

— IT Project Manager, Medium Enterprise Food Company

**Give your employees the freedom to drive the vehicle of their choice with no restrictions on who can drive it. And they get reimbursed for 100% of the business mileage.**

“ We believe it is a great way to ensure our employees are reimbursed at a fair rate based on the vehicles they drive.

— Controller, Medium Enterprise Hospitality Company

**Reimburse your employees tax-free. Share your savings with them.**

“ Through Motus, we were able to successfully move from an allowance-based program to tax-free reimbursements for our associates, which generated significant savings to the company that we were able to reinvest back into other areas of our business.

— Business Professional, Medium Enterprise Food Company

**Increase employee happiness.**

“ Motus has been much more accurate and efficient, saving our employees time and reducing frustrations.

— Operations Manager, Fortune 500 Computer Hardware Company

**Achieve Success With Motus**
