Flexible Connectivity and Placement for Live View Deployments

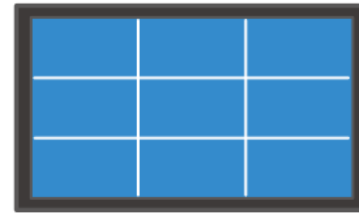

1 screen

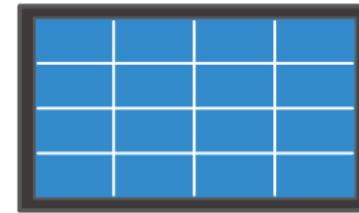

4 screens

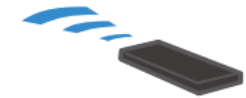

8 screens

9 screens

16 screens

The FDF2304W-IP connects directly to your network and decodes the video signal directly from the camera (up to 16 at once) – ***No computer needed.***

Pixel by Pixel Dynamic Range Adjustment

With **Smart Insight**, see details previously hidden utilizing EIZO's improved dynamic range adjustment.

Conventional

Our solution

Pixel by Pixel Dynamic Range Adjustment

With **Smart Resolution**, see details in the image with visibly less noise. Pixel by pixel adjustment reduces noise when enlarging an image.

Conventional

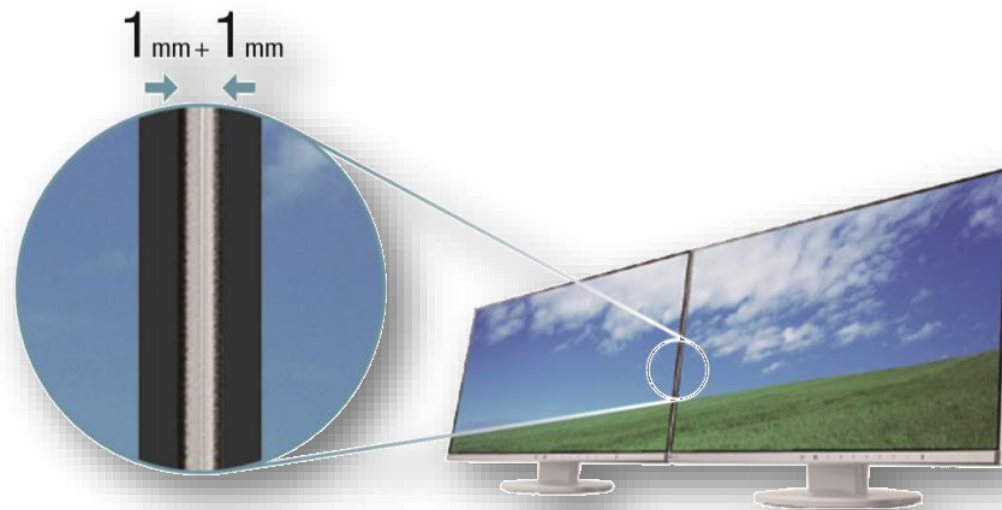

Our solution

See More Image, Less Monitor

Select FlexScan EV series models have 1mm bezels. This reduces eye fatigue, space and increases the viewers effectiveness.

DuraVision Series

Inch Size Options	23 inch	23 inch
