

ASSESSMENT UPDATE: BROOKS TALENT INDEX

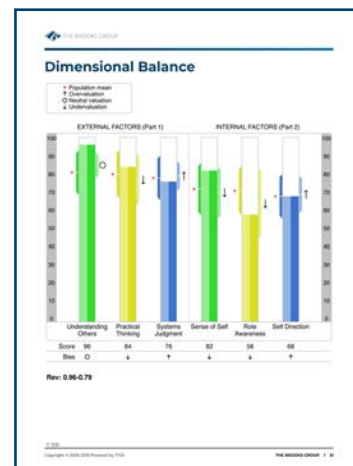

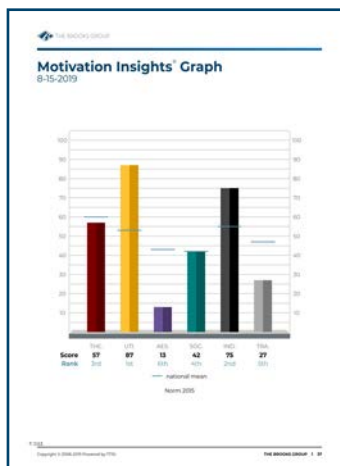

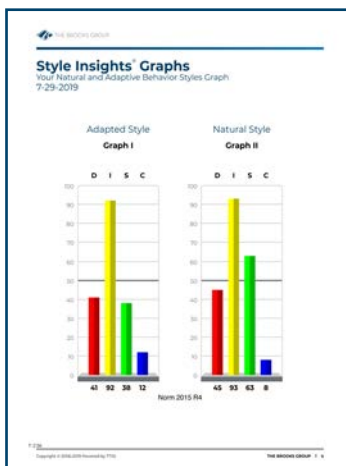

We've updated the assessment to provide a better experience for our clients.

OLD VS. NEW

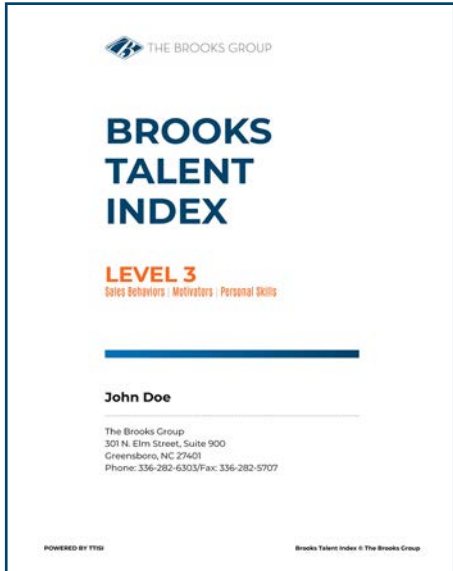

WHAT'S STAYING THE SAME?

Your reports will include the same powerful data revealing an individual's behaviors, motivators, and personal skills.

WHAT'S NEW?

A NEW NAME

The name of the report has changed from TriMetrix ACL to Brooks Talent Index.

You'll see the report has a new cover and the options have been simplified to Sales and Non-Sales (previously Executive, Staff/Management, and Sales).

SIMPLIFIED SCALING SYSTEM

We've updated the report so that the Motivators, Behavioral Hierarchies, Dimensional Balance, and Comparison Report all score from 0-100. This change is intended to improve clarity when interpreting the information.

REPORT CONTINUITY

Whether you're using assessments within a sales training program or for hiring, the reports will be identical.

A NEW TABLE OF CONTENTS

Save time finding the pages you need and navigate the report with ease.

You'll also notice a new page order in the Behaviors section that reflects a more logical flow.

DEMOGRAPHICS COLLECTION OPTION

By electing to answer optional demographic questions, your team can help us provide better insight based on industry, role, performance status, and more!

We made these changes to enhance your experience and further improve your hiring and talent management success. If you have any questions about the new Brooks Talent Index assessment, don't hesitate to reach out to your representative.
